# How your Kaiser Permanente health plan works

## Your Kaiser Permanente Individuals and Families Deductible HMO plan

You are enrolled in the **Kaiser Permanente Individuals and Families Deductible HMO plan**, which includes a couple of key highlights:

- The Signature network
- A deductible

**Your network:** With this plan, you have access to the Signature network, which gives you quality care from Mid-Atlantic Permanente Medical Group, P.C. (Permanente), physicians. They're part of a group of over 1,600 physicians who practice in our state-of-the-art medical centers located in Maryland, the District of Columbia, and Virginia.

**Your deductible:** Your plan has a deductible. A deductible is the amount you pay for covered health care services before your insurance plan starts to pay. After you reach your deductible, you will only need to pay applicable copayment and coinsurance for most covered services for the remainder of your plan year.

Preventive care services, including routine physicals, and well-child visits are covered at no cost, even if your deductible has not been met.

### How your deductible plan works

This table covers the deductible process that takes place between the start and end dates of your plan year.<sup>1</sup>

	Before medical deductible is met	After medical deductible is met	After out-of-pocket maximum is met
Preventive care <sup>2</sup>	No charges	No charges	No charges
Other covered medical services <sup>3</sup>	Full charges	Copays	No charges
		Coinsurance	
Most prescription drugs <sup>3,4</sup>	Copays	Copays	No charges
		Coinsurance	

<sup>1</sup>See your plan document for plan details, including the date your deductible and out-of-pocket maximum will start over.

<sup>2</sup>Most preventive care services are covered at no cost, even before you reach your deductible.

<sup>3</sup>See your plan document for details on what services are subject to the deductible and out-of-pocket maximum.

<sup>4</sup>Some plans have a separate pharmacy deductible. For those plans, you will need to pay full charges before your pharmacy deductible is met. Generic prescriptions may have copays, even when the plan has a separate pharmacy deductible. See your plan document for more details.

If you have questions about how much your visits should cost, visit [kp.org/costestimates](https://kp.org/costestimates). Estimates are based on your plan benefits and whether you've reached your deductible—so you get personalized information every time.

## Choose your doctor— and change anytime

Select from a wide range of great doctors  
and change anytime, for any reason

To help you find a personal doctor (also called a primary care physician) who's right for you, you can browse our online doctor profiles. There, you'll see information related to their education, credentials, specialties, and interest areas, as well as whether or not they're accepting new patients.

Women should choose an ob/gyn in addition to their primary care physician.

### You can choose a personal doctor with any of these specialties:

- Adult medicine/internal medicine
- Family medicine
- Pediatrics/adolescent medicine (for children up to 18)

Each covered family member may choose his or her own personal doctor. If you do not choose a primary care physician or ob/gyn within the first 30 days of enrollment, one will be assigned to you.

If the doctor you'd like to select isn't accepting new patients, you can call us for assistance.

### See specialists, some without a referral

You don't need a referral for the following specialties. Just call for an appointment:

- **800-777-7904** for obstetrics-gynecology and optometry
- **866-530-8778** for behavioral health (initial consultation), except inpatient care, and chemical dependency or addiction medicine

For other types of specialty care, your doctor will refer you. If you have an affiliated or network physician, contact that doctor's office directly.

Go to [kp.org/doctor](https://kp.org/doctor) to browse our doctor profiles and find a doctor who matches your needs. You can also call **800-777-7904** (TTY **711**), 24 hours a day, 7 days a week.

# Elija un médico, y cámbielo en cualquier momento

Elija entre una gran variedad de médicos excelentes y cambie de médico en cualquier momento y por cualquier motivo.

Para ayudarle a encontrar un médico personal (también llamado médico de atención primaria) que sea adecuado para usted, puede explorar los perfiles de nuestros médicos en línea. Allí encontrará información relacionada con su educación, credenciales, especialidades y áreas de interés, y también se indica si están aceptando pacientes nuevos.

Además de un médico de atención primaria, las mujeres deben elegir un ginecobstetra.

**Puede elegir un médico personal con cualquiera de las siguientes especialidades:**

- Medicina para adultos o medicina interna
- Medicina familiar
- Pediatría o medicina para adolescentes (para niños de hasta 18 años)

Cada familiar con cobertura puede elegir su propio médico personal. Si no elige un médico de atención primaria o un ginecólogo/obstetra en un plazo de 30 días a partir de su inscripción, se le asignará uno.

Si el médico que le gustaría seleccionar no está aceptando pacientes nuevos, puede llamarnos para obtener ayuda.

## Consulte a algunos especialistas sin una referencia

No necesita obtener una referencia para las especialidades a continuación. Simplemente llame para hacer una cita.

- Para obstetricia y ginecología, y optometría, llame al **800-777-7904**.
- Para una consulta inicial de salud mental (excepto la atención para pacientes hospitalizados) y farmacodependencia o medicina de la adicción, llame al **866-530-8778**.

Para otros tipos de atención especializada, su médico le dará una referencia. Si cuenta con un médico afiliado o de la red, comuníquese directamente con su consultorio.

Ingrese a [kp.org/doctor](https://kp.org/doctor) (en inglés) para consultar los perfiles de nuestros médicos y encontrar uno que se adapte a sus necesidades. También puede llamar al **800-777-7904 (TTY 711)**, las 24 horas del día, los 7 días de la semana.

Refer to your plan document for the complete definition of emergency medical conditions.

# Telehealth—an easier path to the care you need

With telehealth, your health and safety are our top priorities—just like in-person care. Kaiser Permanente members have been using telehealth for years. And our doctors perform hundreds of these virtual appointments on a daily basis, connecting with our members via computer or mobile device from the comfort of home or convenience of work. So you can rest assured that you can get your care when and where you need it.

## What telehealth means for you

Telehealth means you can reach us by phone, video, or email while still receiving the same level of care and safety you get from in-person visits. Telehealth offers several benefits:

- Your choice of when, where, and how to connect or follow up with providers
- Reduced transportation time and costs
- Greater access to home care if you're immobile or distant
- Health problems caught earlier and fewer gaps in care
- Less risk of exposure to germs outside your home

Schedule a video visit<sup>1</sup> by joining **kp.org** at **kp.org/register** or by downloading the Kaiser Permanente (KP) app and clicking register.

For a video visit, you must have a reliable internet connection and one of the following:

- A smartphone or tablet with the KP app downloaded
- A laptop or desktop<sup>2</sup> with a webcam and audio speakers

## To join your video visit<sup>3</sup> on your mobile device:

- Log in to the KP app
- Tap [View Appointment](#)
- Select your video visit appointment and tap [Join Now](#)

## To join your video visit<sup>3</sup> from your laptop or desktop:

- Log in to **kp.org** (Use the Chrome web browser for the best video visit experience)
- Click [Appointment Center](#)
- Select your video visit appointment and click [Join](#)

## You also have several other easy options to connect to telehealth:

- Telephone appointments with your doctors and emergency physicians
- 24/7 nurse advice telephone line

# Understanding your costs and benefits

## You pay \$0 cost share for in-network preventive care

Preventive care includes routine physicals, well-child visits, and certain screenings and tests (such as mammograms), so there's no need to delay making your first appointment with your primary care physician.

If you have symptoms of a condition, your doctor may order a service to help find out what it is or help treat it. Since you've shown symptoms, this service doesn't qualify as preventive. It's actually diagnostic, since it's used to diagnose your condition, and cost sharing may apply.

You may also get services to help treat a condition that's already been diagnosed. Since you're being treated for an existing condition, these services are also non-preventive, and cost sharing may apply.

Tests or services ordered for or during a routine physical or well-child visit may result in cost sharing if those services are related to diagnosing, monitoring, or treating an existing condition.

You may have a copay for most other care, such as appointments with specialists, urgent care, and some tests and services, please refer to your plan document.

You can estimate the cost of your next visit at [kp.org/costestimates](https://kp.org/costestimates).

You'll need to be registered on [kp.org](https://kp.org) to use this secure tool.

## Understanding your costs and benefits (continued)

“Cost share” refers to what you pay as part of your share for health care costs. Refer to your plan document to learn more about your plan’s specific cost shares.

Type of cost share	What it is	When you pay
<b>Copayments (copays)</b>	The set fee you pay for a covered service (e.g., non-preventive office visit) every time that service is provided. Copayments vary depending on your plan and do not count toward a deductible. However, they do count toward your annual out-of-pocket maximum for most services.	Nearly all plans have copayments or coinsurance. A copayment or coinsurance may be owed on the day you receive services, for each visit, even if multiple visits occur on the same day.
<b>Coinsurance</b>	The percentage of the cost for a covered service. For example, if your coinsurance is 15% and your allowed office visit cost is \$100, then you pay \$15 and the health plan pays \$85. Coinsurance varies according to your plan and does not apply toward the deductible. However, it counts toward your annual out-of-pocket maximum for most services.	There is no copay or coinsurance for preventive care for non-grandfathered plans. What you owe depends upon your plan’s benefits and the services you receive.
<b>Deductible</b> <b>(Visit <a href="http://kp.org/deductibleplans">kp.org/deductibleplans</a> for more information on deductible plans and to find helpful cost tools)</b>	The set amount you must pay each contract year for covered medical services before the health plan begins to pay its share. Not all services may be applied to the deductible. Deductibles vary depending on the plan you have.  Once you have met your deductible, you will be required to pay only the applicable copayment or coinsurance for most covered services for the remainder of your plan’s contract year. Certain conditions may apply.	If you have a deductible, you will be billed for the full allowed amount for each service that is subject to the deductible during check-in or after the service via mailed bill. You may also receive an estimate of your charges before your office visit for certain services, and you may choose to make a deposit payment based on that estimate.
<b>Out-of-pocket maximum</b>	The maximum amount you pay out of pocket each contract year for most covered services. Once the amounts you have paid equal the out-of-pocket maximum, you pay nothing for those covered services for the remainder of the contract year.	Depending on your plan, the copayments, coinsurance, and deductibles you pay for most services will count toward the out-of-pocket maximum.

# Claims

## You will not file claims for services if:

- You get medical care and services from network providers.
- You get an authorized referral from your network provider to see an out-of-network provider.

## If you file a claim:

- You have up to 180 days from the date you received care to submit your claim.
- Kaiser Permanente will review the claim and decide what payment or reimbursement may be owed you.
- Care must be medically necessary. Please refer to your plan document.

## How to file the claim

To request payment or reimbursement, ask your service provider for a statement on its stationery with the following information:

- Name of the patient
- Date of service
- Service provided (procedures performed, with Current Procedural Terminology [CPT] code)
- Diagnosis with International Classification of Diseases (ICD) code
- Amount charged for each service

Write the member's Kaiser Permanente ID number on each page of the document.

To help your claim process faster, you can also download a member reimbursement form. This form can be sent along with your receipts and provider statement. To download the form, log on to [kp.org](https://kp.org), select [Coverage & Costs](#), then click [Submit a claim](#). The member reimbursement form will be under the [Claim forms](#) section.

### Mail it to:
