YOU, YOUR DOCTORS, and Kaiser Permanente

IT STARTS WITH YOUR PERSONAL PHYSICIAN

Your Permanente primary care physician (PCP) partners with you to help you live the healthiest life possible. He or she coordinates your care, orders needed tests, and consults with specialists, pharmacists, and others as needed. When you have a PCP, you have a physician who knows you, understands your health goals and preferences, and advocates for you. The information you need to choose your PCP can be found in this directory or online at kp.org/doctor. The next pages show you how to do both. If you're a woman age 18 or older, you also have a personal obstetrician/gynecologist who coordinates your special health care needs.

NEW! In 2016, you'll be able to make a video appointment with your Permanente personal doctor. You'll need a smartphone, tablet, or computer with a camera and you must be present in Maryland, D.C., or Virginia during the appointment.

CONTINUING YOUR CARE WITH SPECIALISTS*

Should you ever need a specialist (for example, a cardiologist, neurologist, podiatrist, or dermatologist), we have doctors who are able to address health care needs across more than 50 medical and surgical specialties. Our specialists are experts in their fields and are ready to help diagnose and treat you whether you have a broken bone or a chronic condition. Having a team that knows you and is focused on you can lead to quicker, better diagnoses and treatments. At many locations, your doctor, specialists, lab services, radiology, and pharmacy are all together in one place.

**Choose with confidence:
Your physicians are part of
the Mid-Atlantic Permanente
Medical Group***

There are more than 1,200 physicians in the multispecialty Mid-Atlantic Permanente Medical Group, P.C., who treat Kaiser Permanente members like you. They practice in Kaiser Permanente medical centers. The group includes physicians from major specialties and subspecialties, behavioral health, and high-risk prenatal care.

Because our care model

reduces the burden of administrative hassles, insurance claim forms, and other paperwork for Permanente doctors, they're free to focus

on what they do best—delivering great care that's right for you. This is why we are able to successfully recruit from top medical schools and from private practices across the nation. Doctors are looking for a better way to practice medicine, and Kaiser Permanente allows them to spend more time with you and less time running a business.

* **Note:** You may also choose from among network physicians.

Your doctor: Permanente physicians are rigorously screened and expertly trained

- Board certified or, for newly hired physicians, required to become board certified within five years of hire
- Expert training in a specialty
- Completed medical specialty exam
- Re-credentialed every three years, every two years for certain specialties
- License and certification always up-to-date
- Trained to communicate with patients

IT'S TOUGH TO BECOME ONE OF OUR DOCTORS.

Only 1 in 10 who applies is accepted as a Permanente doctor.

Permanente physicians promote a healthy lifestyle, disease prevention, evidence-based medicine, education, and open communication. Improving patient health using these approaches, combined with management of chronic diseases, is a cornerstone of Permanente medicine.

STATE-OF-THE-ART CONNECTIVITY

Your electronic health record brings it all together*

Your Permanente physician has immediate access to your medical information so you get the right care at the right time. Your doctors are connected by the largest private-sector electronic health record system in the world, which allows your Permanente physician to

- Consult easily with other Permanente doctors, pharmacists, nurses, and other health professionals when you receive care at a Kaiser Permanente facility,
- Link securely to every Kaiser Permanente facility in your region, so you get coordinated care wherever you go, and
- Send prescriptions to our medical center pharmacies so they can be filled quickly.

Whether you speak with an advice nurse, see a Permanente doctor in urgent care at 3 a.m., or visit a specialist, your medical record gives them your latest information at their fingertips.

It's easy to get connected*

Once registered on **kp.org**, you have secure, 24-hour access to My Health Manager. This online resource can save you time and money and offer greater peace of mind. You can email a question to your doctor at any time and at no cost. Answers are prompt, secure, and private. You can also:

- Schedule appointments.

Your doctor's office, plus so many added conveniences*

You can choose your Permanente primary care doctor from any of our medical centers in Maryland, Virginia, or the District of Columbia. Choose a physician close to home or work, whichever is most convenient for you. If you have a family, you may choose one family practice physician to care for all of your family, or a different physician for each member of your family. You'll get conveniences like onsite X-ray, pharmacy, lab, and easier access to specialists. The hassles of driving all over town for medical care can become a distant memory.

It's all inside: The convenience of Kaiser Permanente medical centers

We take convenience to a new level by making it possible to see your doctor or get medical advice from the comfort of your home.

Easy advice by phone or video:

You can get medical advice 24/7 by phone from skilled nurses or get advice in a video chat with an emergency medicine doctor, both for no cost share.** And they have your medical information to help ensure accurate, safe, and personal advice.

Easy video appointments:

In 2016, you'll be able to have a video appointment with your personal physician when coming in for a visit may not be clinically needed, at no extra cost.

Easy specialist care:

While you're in the exam room with your doctor, he or she may want to connect with a specialist about your care.

- Your physician may be able to communicate with the specialist by phone or electronically—sometimes while you're still in the exam room—which may save you the trip to the specialist or confirm the specialty care necessary.
- While you're at your medical center, you can sometimes have a video visit with certain specialists located elsewhere, saving you an in-person visit and copay.**
- If you need to visit the specialist in person, your doctor will normally schedule a Permanente specialist appointment for you, often for the same or next day.

Easy-to-use online tools:

From your computer, tablet, or smart phone, you can:

- Email your doctor's office,
- Order most prescription refills,
- Read most lab test results,
- Read your specific benefits

And much, much more.

* Check pages 20–35 for locations where these services are available.

** Video advice with a doctor is for certain medical conditions for members 18 years and older. Video appointments with PCPs available only with Permanente physicians. Both available only when member is physically present in Maryland, Virginia, or Washington, D.C. Video medical advice for those 12 years and older available winter 2015.

Advice when you need it, day or night, weekends or holidays

From wherever you live, work, or play*

Just call our advice line at **800-777-7904** to speak to a local registered nurse or to chat with a physician. They both have access to your medical record and can give you real-time answers to most medical questions.

Our advice line offers you help day or night. Call us from wherever you are. There's no copay.

Your advice line nurse may suggest a consultation with a doctor trained in emergency medicine using the camera on your computer, tablet, or phone. It's available to you for no additional charge 24 hours a day, seven days a week.

You'll be able to see and talk to the doctor and they can examine you to determine, for example:

- How severe your burn is
- If you need X-rays for your injured ankle
- If you have the flu or something more serious

Your doctor will be able to view your condition in real time and, if needed, refer you to an urgent care facility, emergency room, your primary care physician, a pediatrician, or a specialist.

If your primary care physician does not practice at one of our medical centers: Please call your physician's office directly, at the telephone number on the back of your membership ID card, for medical advice.

* Note: Video chat with a doctor is only for members 18 years and older who receive care at Kaiser Permanente facilities. Available only when member is physically present in Maryland, Virginia, or D.C. Certain restrictions apply. Video advice from a doctor available to those 12 and older beginning winter 2015.

Kaiser Permanente Urgent Care and Urgent Care PLUS

Better medicine when you need it

A higher level of care

All Kaiser Permanente Urgent Care centers offer more clinical capabilities than average urgent care centers, including

- General radiology (X-ray)
- The ability to administer IV medications on site
- Pharmacy located on site
- Urgent lab services, also on site

Our Urgent Care PLUS locations offer additional services, such as

- 24/7 hours of operation
- Advanced imaging (CT scans and MRIs)
- Extended treatment and observation capabilities, including cardiac monitoring, blood transfusions, and more
- Physicians board certified in emergency medicine on site

You should experience shorter average wait times than you would in an emergency room.

Stay connected with the doctors you know

When you need urgent care services, you can get the care you need right at a Kaiser Permanente medical center from Permanente physicians. These Permanente specialists provide coverage to our urgent care centers several of which are open 24/7. There, the doctors and health care team have access to your electronic medical record so they know your medications, medical conditions, and medical history. Afterward, your primary care physician will be able to access the information from your visit so he or she can follow up with you. If you need urgent care while out of our service area, please call our advice number for guidance.

It's Kaiser Permanente care, continued.

Call-ahead convenience for appointments and medical advice

When you think you might need urgent care services you might not know whether you need a regular appointment, an urgent care appointment, or emergency care. Simply call to speak with an advice nurse who can answer your questions, make recommendations, schedule your urgent care appointment, and provide directions if you need them. The phone number is conveniently located on the back of your member identification card. The article on page 12 of this directory shows how our service can save you time and money.

Cost advantage and time saving

Your urgent care cost share may be significantly less than what you'd pay for an emergency room visit. For specific cost information, please refer to your current *Evidence of Coverage*.

Continuing your Kaiser Permanente care in the hospital

In many hospitals, you can feel like “just another patient.” Your stay can be confusing and even a little scary. At Kaiser Permanente, we believe you deserve better. We want to make your hospital visit easier, and our premier hospitals* are our partners in that effort. The premier hospitals are some of the finest in the region. Please see kp.org/premierhospitals for details on the awards and accolades each of these hospitals has received. They have Kaiser Permanente physicians available 24 hours a day, 7 days a week and are listed in bold on the next page.

Not every hospital can be a Kaiser Permanente premier hospital. Before becoming a premier partner, each hospital is carefully checked—and rechecked—for quality of care, comfort, and safety. Independent agency reviews make sure all premier hospital partners provide top-rated, award-winning care.

When you stay in one of our premier hospitals, you have a team taking care of you that includes a Permanente hospitalist. A hospitalist is a doctor who works hand-in-hand with the hospital staff and doctors to assist you during your stay. These hospitalists are available around the clock to improve your care before, during, and after your visit.

Your medical history is in the hospital with you

At our premier hospitals, Permanente hospitalists and specialty physicians have your Kaiser Permanente medical record on hand, including your medication history, lab results, allergies, doctors’ notes, and X-rays. They also update your medical record with the details of your hospital stay, so you won’t have to transfer any records to other Permanente physicians after you leave the hospital.

Our premier hospitals and beyond

We believe our premier hospitals are the best places to go for nearly any hospital need. However, you may sometimes require unique medical care. That’s why we’ve arranged with a national network of medical centers for special services like organ transplants. If your team of Permanente physicians feels you need care not offered by our premier hospitals, you’re covered, including transportation to another facility.

After the hospital

A Kaiser Permanente patient care coordinator will help with your hospital stay and afterward. When you leave the hospital, you can focus on getting better and your Permanente hospitalist and other members of the Kaiser Permanente team will continue to help. If you continue your care in a skilled nursing facility, need at-home health services, or need follow-up visits with your Permanente primary care physician or specialist, we make your care as easy as possible.

Only at our premier hospitals can you receive this special Kaiser Permanente hospital-to-home care.

* Kaiser Permanente premier hospitals are independently owned and operated hospitals and are not affiliated entities of Kaiser Permanente.

To contact Member Services, go to kp.org, or call toll free at 800-777-7902 (TTY 711).

For details about your benefits, please refer to your current *Evidence of Coverage*.

Please see kp.org/premierhospitals for details on the awards and accolades each of these hospitals has received. Hospital addresses, telephone numbers, and hours of operation are subject to change. The continued availability and/or participation of any hospital cannot be guaranteed.

Inpatient behavioral health and substance abuse services may be provided at other hospitals.

Hospitals

If your condition requires that you be hospitalized, your primary care physician will coordinate your referral and care at the hospital where he or she is associated.

The hospitals listed in **bold**, which are our premier hospitals, have Kaiser Permanente physicians available 24 hours a day, seven days a week. Our Permanente physicians will provide medical and surgical care for admitted Kaiser Permanente members and coordinate care with the member's primary care physician.

Kaiser Permanente premier skilled nursing facilities

Coordination for better care

A commitment to your health

Not all skilled nursing facilities (SNFs) can be Kaiser Permanente premier facilities.*

To qualify, each facility has been carefully evaluated—and is regularly reassessed—for the quality of care, comfort, and services it provides. Staff at Kaiser Permanente premier SNFs, along with your health care team, have a shared commitment to your health and well-being and are working together for the best possible outcome.

Staying connected

At a premier SNF, your health care team is made up of a Permanente doctor and case manager. They plan and coordinate your care from hospital to SNF to home. Having quick and direct access to your electronic medical records means your health care team knows everything about your care plan. It's the same information that's available to the entire team of Permanente physicians and Kaiser Permanente staff, whether in primary care, in specialty care, in our premier hospitals,** or even at our Clinical Contact Center.

Being connected like this means that everyone involved in your care stays up-to-date on your condition, medicines, test results, and therapy at all stages of your rehabilitation.

You don't have to worry about arranging your own appointments, obtaining medical records, or coordinating information with your Permanente primary care physician, the Kaiser Permanente team taking care of you in our premier hospitals, and the team in our premier SNFs. It all happens automatically when you're a Kaiser Permanente member receiving care at one of our premier SNFs. More information is available online at kpskillednursingfacility.com *

Getting you back home

Our goal—just like yours—is to get you better and back in the comfort of your home as soon as possible. Because the care is so well coordinated, we have found that members who stay in our premier SNFs are often able to go home sooner than those who stay in other facilities.***

Your team is there, every step of the way.

At a premier SNF, you're more than just a patient. You're our member, and your Kaiser Permanente health care team wants to do everything possible to maximize your recovery.

- Your Kaiser Permanente health care team knows who you are and why you're there, before you even arrive. They'll answer any questions you may have.
- You're seen at least weekly by the Permanente physician. Your Kaiser Permanente case manager will help you with your discharge plans. Each one oversees a specialized part of your care.
- The Permanente physician and nurse practitioner make sure that you stay on the road to recovery.
- Your Kaiser Permanente case manager is there for you to talk with and to help you with your transition from the SNF once you're ready to be discharged.
- You can even use video technology, when appropriate, for a consultation, saving you a trip to the doctor.

* Kaiser Permanente premier SNFs are independently owned and operated and are not affiliated entities of Kaiser Permanente. Facility designation (such as "premier," "participating facilities") may change from time to time without notice.

** Please see kp.org/premierhospitals for details on the awards and accolades each of these hospitals has received.

*** Average length of stay: Kaiser Permanente premier SNFs (16.9 days) versus non-premier facilities (23.7 days). Source: Kaiser Permanente Skilled Nursing Facility Report Card, January 2013–June 2013.

Skilled nursing facilities

If you require skilled nursing care, you will be directed to a premier* skilled nursing facility, unless a premier facility cannot provide the level of medical care you need. In the event you need a level of care that is not available at a premier skilled nursing facility, we will arrange care at one of our participating facilities to ensure you are admitted to a premier hospital should the need arise. More information is available online at kpskillednursingfacility.com.*

Premier* skilled nursing facilities are those facilities that have entered into a contractual agreement with the health plan and where health plan staff is available and actively involved in all patient care plans. Our case managers will work with plan physicians to ensure you are admitted to a premier or participating facility with the appropriate level of care to meet your specific medical needs.

Participating facilities* are those facilities that have entered into a contractual agreement with the health plan, and where members may be referred when necessary and appropriate.

USTED, SUS MÉDICOS y Kaiser Permanente

TODO EMPIEZA CON SU MÉDICO PERSONAL

Su médico de atención primaria (PCP, en inglés) de Permanente trabaja en asociación con usted para ayudarle a vivir la vida más saludable posible. Él o ella coordina su atención, ordena las pruebas necesarias y consulta con especialistas, farmacéuticos y otros según sea necesario. Cuando usted cuenta con un PCP, tendrá un médico que lo conoce, entiende sus objetivos y preferencias de salud y aboga por usted. La información que usted necesita para elegir a su PCP se puede encontrar en este directorio o en línea en kp.org/doctor. Las páginas siguientes le indican cómo hacer ambas cosas. Si usted es una mujer de 18 años o más, también cuenta con un obstetra/ginecólogo personal que coordina sus necesidades especiales de atención médica.

¡NUEVO! En 2016, usted podrá tener una consulta por video con su médico personal de Permanente. Necesitará un smartphone, tableta o computadora con cámara y debe estar presente en Maryland, D.C. o Virginia durante la consulta.

CONTINUIDAD DE SU ATENCIÓN CON ESPECIALISTAS*

En caso de que alguna vez necesite un especialista (por ejemplo: un cardiólogo, neurólogo, podólogo o dermatólogo), contamos con médicos que pueden satisfacer las necesidades de atención médica en más de 50 especialidades médicas y quirúrgicas. Nuestros especialistas son expertos en sus áreas y están preparados para ayudar a diagnosticar y tratarlo ya sea que tenga un hueso fracturado o sufra de una afección crónica. El contar con un equipo que lo conoce y está concentrado en usted puede resultar en diagnósticos y tratamientos más rápidos y mejores. En muchas instalaciones, su médico, especialistas, servicios de laboratorio, radiología y farmacia están todos juntos en un solo lugar.

Atención Urgente y Atención Urgente PLUS de Kaiser Permanente

Una mejor atención de salud cuando la necesite

Un nivel de atención más alto

Todos los centros de Atención Urgente de Kaiser Permanente ofrecen más capacidades clínicas que los centros de atención urgente promedio, incluidos los siguientes servicios

- radiología general (rayos X)
- la capacidad de administrar medicamentos por vía intravenosa en el mismo centro
- farmacia ubicada en el mismo centro
- servicios de laboratorio de urgencia, también en el mismo centro

Nuestras sedes de Atención Urgente PLUS ofrecen servicios adicionales, como

- horario de atención las 24/7
- imágenes avanzadas (escán CT y MRI)
- tratamiento y observación extendidos, incluido el monitoreo cardíaco, transfusiones de sangre y más
- médicos certificados por la junta en medicina de urgencias en el mismo centro

El tiempo de espera promedio es menos que en una sala de emergencias.

Permanezca conectado con los médicos que usted conoce

Cuando necesite servicios de atención urgente usted puede obtener la atención que necesita directamente en su centro médico de Kaiser Permanente de parte de médicos de Permanente. Estos especialistas de Permanente brindan cobertura a nuestros centros de atención de urgencia, muchos de los cuales se encuentran abiertos 24/7. Allí, los médicos y el equipo de atención de la salud tienen acceso a su registro de salud electrónico por lo cual ellos conocen sus medicamentos, afecciones médicas e historia médica. Después, su médico de atención primaria podrá tener acceso a la información sobre su consulta para que él/ella pueda hacerle seguimiento. Si necesita atención urgente mientras está fuera de nuestra área de servicio, sírvase llamar a nuestro número de consejería para recibir orientación.

Es la atención continuada de Kaiser Permanente.

Conveniencia de llamada anticipada para citas y consejería médica

Cuando crea que podría necesitar servicios de atención urgente, quizás no sepa si necesita una cita normal, una cita de atención urgente o atención de emergencia. Simplemente llame para hablar con un enfermero de consejería médica que pueda responder sus preguntas, hacer recomendaciones, programar su cita de atención urgente y darle instrucciones si las necesita. El número telefónico se encuentra convenientemente ubicado en el reverso de la tarjeta de identificación del miembro. El artículo en la página 86 de este directorio describe cómo el servicio le puede ahorrar tiempo y dinero.

Ventaja de costos y ahorro de tiempo

Su costo compartido de atención urgente podría ser significativamente inferior que lo que pagaría por una visita a la sala de emergencias. Para recibir información específica sobre costos, consulte su *Evidence of Coverage* (Evidencia de cobertura).

Continuación de su atención por parte de Kaiser Permanente en el hospital

En muchos hospitales, usted se podría sentir que es “tan solo otro paciente más”. Su estadía podría ser confusa y hasta un poco temerosa. En Kaiser Permanente, creemos que usted se merece lo mejor. Queremos hacer que su visita al hospital sea más fácil, y nuestros hospitales de primera* son nuestros socios en ese esfuerzo. Los hospitales de primera son algunos de los de mayor calidad en la región. Vea kp.org/premierhospitals para conocer los detalles sobre los premios y galardones recibidos por cada uno de estos hospitales. Cuentan con médicos de Kaiser Permanente disponibles las 24 horas del día, los 7 días de la semana y están en una lista en negrita en la página siguiente.

No todos los hospitales pueden ser un hospital de primera de Kaiser Permanente. Antes de convertirse en un socio de primera, cada hospital se somete a una revisión exhaustiva—y se vuelve a revisar—en cuanto a la calidad de la atención, la comodidad y la seguridad. Las revisiones de parte de agencias independientes verifican que todos los hospitales socios de primera ofrezcan atención galardonada de primer nivel.

Durante su estadía en uno de nuestros hospitales de primera, tiene a su disposición un equipo que cuida de usted y que incluye a un médico hospitalista de Permanente. Un médico hospitalista es un médico que trabaja mano a mano con el personal del hospital y los médicos para brindarle asistencia durante su estadía. Estos médicos hospitalistas están disponibles las 24 horas del día para mejorar su atención antes, durante y después de su visita.

Su historial médico permanece en el hospital con usted

En nuestros hospitales de primera, los médicos hospitalistas y los médicos especializados de Permanente tienen su registro de salud de Kaiser Permanente a mano, incluyendo su historial de medicamentos, resultados de laboratorio, alergias, apuntes de los médicos y rayos X. Ellos también actualizan su registro de salud con los detalles de su estadía en el hospital, por lo que no tendrá que transferir ningún registro a otros médicos de Permanente después de que salga del hospital.

Nuestros hospitales de primera y más allá

Nuestros hospitales de primera son los mejores lugares a los cuales acudir para casi cualquier necesidad hospitalaria. Sin embargo, reconocemos que a veces podría ser necesaria una atención médica particular. Es por eso que contratamos a una red nacional de centros médicos para servicios especializados, como trasplantes de órganos. Si su equipo de médicos de Permanente considera que usted necesita atención que no ofrecen nuestros hospitales de primera, usted está cubierto, incluido el transporte a otro centro.

Después del hospital

Un coordinador de atención al paciente de Kaiser Permanente le ayudará con su estadía en el hospital y después. Al salir del hospital, usted puede concentrarse en su recuperación y su médico hospitalista de Permanente y otros miembros del equipo de Kaiser Permanente seguirán ayudando. Si continúa su atención en un centro de enfermería especializada, necesita los servicios de salud en el hogar, o visitas de seguimiento con su médico Permanente de atención primaria o especialista, nosotros haremos que su atención sea lo más fácil posible.

Solo en nuestros hospitales de primera se puede recibir esta atención especial del hospital al hogar de Kaiser Permanente.

* Los hospitales de primera de Kaiser Permanente son independientes en cuanto a su propiedad y funcionamiento y no son entidades afiliadas de Kaiser Permanente.

Para ponerse en contacto con Servicios para Miembros, visite kp.org, o llame gratis al **800-777-7902 (TTY 711)**.

Los servicios de salud mental y de abuso de sustancias en el hospital pueden ser suministrados en otros hospitales.

Hospitales

En el caso que usted tenga que ingresar en un hospital, su médico de atención primaria coordinará su referencia y atención en el hospital donde el/ella está asociado.

Los hospitales listados en **negritas** los cuales son nuestros hospitales de primera, tienen médicos de Kaiser Permanente disponibles las 24 horas del día, 7 días de la semana. Nuestros médicos de Permanente proporcionarán atención médica y quirúrgica a miembros de Kaiser Permanente admitidos y coordinarán la atención con el médico de atención primaria del miembro.

Instalaciones de atención especializada de primera de Kaiser Permanente

Coordinación para una mejor atención

Un compromiso con su salud

No todas las instalaciones de atención especializada (SNF, por sus siglas en inglés) pueden ser instalaciones de primera de Kaiser Permanente.*

Para calificar, cada centro ha sido cuidadosamente evaluado—y reevaluado con regularidad—en cuanto a la calidad de la atención, comodidad y servicios que ofrece. El personal en las instalaciones de atención especializada de primera de Kaiser Permanente y su equipo de atención médica tienen un compromiso compartido con su salud y su bienestar y trabajan coordinados para obtener el mejor resultado posible.

Permanezca conectado

En una instalación de atención especializada de primera, su equipo de atención médica está conformado por un médico de Permanente, y administrador de caso. Ellos planean y coordinan su atención desde el hospital a las instalaciones de atención especializada y luego al hogar. Tener un acceso rápido y directo a su registro de salud electrónico significa que su equipo sabe todo sobre su plan de atención. Es la misma información que está disponible para el equipo completo de médicos de Permanente y personal de Kaiser Permanente, ya sea que se trate de atención primaria, atención especializada, en nuestros hospitales de primera,** o incluso en nuestro Centro de Contacto Clínico.

Estar conectado de esta manera significa que todos los que participan en su atención permanecen actualizados acerca de su afección, medicamentos, resultados de pruebas y terapia en

todas las etapas de su rehabilitación. Usted no se tiene que preocupar por coordinar sus propias citas, obtener los registros de salud o coordinar información con su médico de atención primaria de Permanente, el equipo de Kaiser Permanente que cuida de usted en nuestros hospitales de primera y el equipo en nuestras instalaciones de atención especializada de primera. Todo ocurre de manera automática cuando usted es miembro de Kaiser Permanente que recibe atención en una de nuestras instalaciones de atención especializada de primera. Más información está disponible en línea en kpskillednursingfacility.com.*

De regreso a casa

Nuestra meta, al igual que la suya, es ayudarlo a recuperarse y regresar a la comodidad de su hogar lo más pronto posible. Dado que la atención está tan bien coordinada, hemos descubierto que los miembros que permanecen en nuestras instalaciones de atención especializada de primera a menudo se pueden ir a casa antes que los que permanecen en otros centros.***

Su equipo está presente, en cada paso del camino.

En una instalación de atención especializada de primera, usted es más que un simple paciente. Usted es nuestro miembro, y su equipo de atención médica de Kaiser Permanente quiere hacer todo lo posible para maximizar su recuperación.

- Su equipo de atención médica de Kaiser Permanente sabe quién es usted y por qué está ahí, incluso antes de su llegada. Ellos responderán cualquier pregunta que usted pueda tener.
- Al menos una vez a la semana será atendido por el médico de Permanente. Su administrador de caso de Kaiser Permanente lo ayudará con sus planes de alta. Cada uno vigila una parte especializada de su atención.
- El médico de Permanente y el enfermero médico se cercioran de que usted permanezca en la ruta de la recuperación.
- Su administrador de caso de Kaiser Permanente está ahí para hablarle y ayudarlo con su transición de las instalaciones de atención especializada una vez que usted esté listo para el alta.
- Incluso puede utilizar la tecnología de video, cuando corresponda, para una consulta, que le ahorra el viaje al médico.

** Vea kp.org/premierhospitals para conocer los detalles de los premios y galardones recibidos por cada uno de estos hospitales.

Instalaciones de atención especializada

Si necesita un cuidado con atención especializada, se lo dirigirá a una instalación de atención especializada de primera*, a menos que una instalación de primera no pueda brindar el nivel de atención médica que necesita. En caso de que necesite un nivel de atención que no esté disponible en una instalación de atención especializada de primera, nos encargaremos de conseguir la atención en una de nuestras instalaciones participantes a fin de asegurarle que será admitido en un hospital de primera en caso de necesidad. Más información está disponible en kpskillednursingfacility.com.*

Las instalaciones de atención especializada de primera* son aquellas instalaciones que han firmado un contrato con el plan de salud y donde el personal del plan de salud está disponible y participa activamente en todos los planes de atención a los pacientes. Nuestros administradores de casos trabajarán con los médicos del plan para garantizarle que será admitido en una instalación de primera o participante con el nivel de atención adecuado para satisfacer sus necesidades médicas específicas.

Las instalaciones participantes* son aquellas instalaciones que han firmado un contrato con el plan de salud y donde los miembros pueden referirse cuando fuere necesario y pertinente.

Step one: For everyone

Choose a primary care physician (PCP) from the list in this section. You and your family members each need a PCP. You can choose one doctor for each family member or a single physician to treat your entire family. Primary care medical specialties are:

- Family practice
- Internal medicine
- Pediatrics

Step two: For women

If you are a woman, age 18 to 75, choose an obstetrician/gynecologist (Ob/Gyn) from the list in this section *in addition* to your PCP. It's important that you have an Ob/Gyn and a PCP. Please select one of each type of physician to care for you. To receive information on general and internal medicine, family practice, pediatric, Ob/Gyn, and behavioral health providers who are accepting new patients, as applicable, please go online at kp.org or call member services at **301-468-6000** or toll free at **1-800-777-7902 (TTY 711)**.

Referrals to specialists

Mid-Atlantic Permanente Medical Group (MAPMG) physicians offer primary care, pediatric services, obstetric/gynecological services, and specialty care, including, but not limited to, orthopedics, general surgery, dermatology, neurology, cardiology, and gastroenterology. If your primary care physician decides that you require covered services from other providers, you will usually be referred to a Permanente physician. Should you require services not available within MAPMG or where such services do not meet regulatory requirements for access, you might be referred to an affiliated provider in the community for that service. Receiving services from non-plan providers will be authorized only if the services are not available from plan providers. You must have an authorized referral for specialists and non-plan providers for us to cover the services and/or supplies provided. If the referral to a non-plan provider is appropriately authorized, you pay only the cost-share you would have paid if a plan provider had provided the services and/or supplies.

It is important to know that when you enroll in this health plan the services are provided through the health plan's delivery system, as described in your current *Evidence of Coverage* (EOC). The following is a list of Mid-Atlantic Permanente Medical Group, P.C., primary care physicians who practice at our medical centers and the affiliated physicians who are available to provide services to you as of the date of the publication. The continuous availability and current location of physicians, medical centers, hospitals, and other providers cannot be guaranteed. As a Kaiser Permanente Select member, you must receive all care through Kaiser Permanente physicians, except for emergency and out-of-area urgent care. This directory is updated annually. For the most up-to-date list of primary care physicians, go to our website, kp.org.

Primer paso: para todos

Elija un médico de atención primaria (PCP) de la lista en esta sección. Usted y sus miembros de familia tienen que elegir un médico de atención primaria. Usted puede elegir un médico para cada miembro de la familia o un médico para que atienda a toda su familia. Las especialidades de atención primaria son:

- Práctica familiar
- Medicina interna
- Pediatría

Segundo paso: para mujeres

Si usted es una mujer entre las edades de 18 – 75 años, debe elegir un obstetra/ginecólogo (ob/gyn) de la lista en esta sección además de su médico de atención primaria. Es importante que tenga un ob/gyn y un médico de atención primaria. Haga el favor de elegir un médico de cada tipo para cuidarle. A fin de recibir información sobre proveedores de medicina general e interna, práctica familiar, pediatría, obstetricia/ginecología (ob/gyn) y salud mental que aceptan a nuevos pacientes, cuando correspondiere, visite **kp.org** en Internet o llame a Servicios para Miembros al **301-468-6000** o llame gratis al **1-800-777-7902 (TTY 711)**.

Referencias a especialistas

Los médicos del Mid-Atlantic Permanente Medical Group (MAPMG) ofrecen atención primaria, servicios pediátricos y de obstetricia/ginecología, así como atención de especialistas, entre los que figuran, aunque sin limitarse a ellos, los de ortopedia, cirugía general, dermatología, neurología, cardiología y gastroenterología. Si su médico de atención primaria, decide que requiere servicios cubiertos de otros proveedores, puede ser que sea enviado a un médico de Permanente. Si llegara a necesitar servicios que no se ofrezcan en MAPMG, o en el caso que dichos servicios no satisfagan los requisitos reglamentarios para tener acceso a los mismos, tal vez lo envíen a ver a un proveedor afiliado en la comunidad que sí los ofrezca. La prestación de servicios por proveedores que no pertenezcan al plan solo será autorizada en el caso que no los presten otros proveedores del plan. Usted tiene que tener una orden autorizada de referencia al proveedor fuera del plan para que podamos cubrir los servicios y/o materiales proporcionados. Si la orden de referencia a un proveedor fuera del plan es debidamente autorizada, usted solo pagará los costos compartidos que tendría que haber pagado si un proveedor del plan le hubiese proporcionado los servicios y/o los materiales.

Es importante saber que cuando usted se inscribe en este plan de salud, los servicios son prestados por intermedio del sistema de suministro del plan de salud, descrito en su Evidence of Coverage (EOC, por sus siglas en inglés). A continuación se muestra una lista de los médicos de atención primaria de Mid-Atlantic Permanente Medical Group, P.C., que ejercen en nuestros centros médicos, así como los médicos afiliados disponibles para prestarle servicios a partir de la fecha de publicación. No podemos garantizar disponibilidad continua y dirección actual de los médicos, centros médicos, hospitales y demás proveedores. Como miembro del Plan Select de Kaiser Permanente, usted tiene que recibir toda su atención de médicos de Kaiser Permanente, excepto en casos de emergencia y atención urgente fuera de su área. Este directorio es actualizado todos los años. Para ver la lista más reciente de médicos de atención primaria, visite nuestro sitio Web en **kp.org**.
