Section 1 — Introduction

This directory provides a list of Kaiser Permanente's network providers.

Your Primary Care Provider

You will have to choose one of our network providers listed in this directory to be your **P**rietary **C**are **P**rovider (PCP). The term "PCP" will be used throughout this directory. Generally, you must get your health care services from your PCP.

Your PCP meets state standards and is trained to give you primary medical care. He or she will usually practice general medicine, also called internal medicine or family practice. Women may also choose specialists in obstetrics-gynecology whom the Medical Group designates as Primary Care Providers. At some facilities, you also have the option of choosing a nurse practitioner (NP) or physician assistant (PA) to be your PCP.

Your PCP will give you most of your care. If you need a specialist, your PCP will help you choose a doctor in that field and work with him or her as part of your health care team.

You can choose your PCP from any of our available primary care doctors, nurse practitioners, or physician assistants. Once you make your choice, it is effective right away. If you wish, you can change your PCP for any reason.

Bills from out-of-network providers

If you receive a bill from an out-of-network provider, you should not pay the bill. Send it to our Claims Department and they will let you know how much you have to pay.

Emergency and urgent care

If you have an emergency medical condition, call **911** or go to the nearest hospital. When you have an emergency medical condition, we cover emergency care anywhere in the world.

For ease and continuity of care, we encourage you to go to a Plan hospital Emergency Department if you are inside our service area, but only if it is reasonable to do so, considering your condition or symptoms.

If you have an emergency, we will talk with the doctors who are giving you emergency care to help manage and follow up on your care. The doctors who are giving you emergency care will decide when your condition is stable, and the medical emergency is over.

After the emergency is over, you are entitled to follow-up care to be sure your condition continues to be stable. Your follow-up care will be covered by our Plan. If your emergency care is provided by out-of-network providers, we will try to arrange for network providers to take over your care as soon as your medical condition and the circumstances allow. It is very important that your out-of-network provider call us to get authorization for post-stabilization care before you receive the care from the out-of-network provider. You will only be held financially liable if you are notified by the out-of-network provider or us about your potential liability.

You must use network providers except in emergency or urgent care situations, or for out-of-area renal dialysis or other services. If you obtain routine care from out-of-network providers neither Medicare nor Kaiser Permanente will be responsible for the costs.

How do you find Kaiser Permanente providers that serve your area?

This directory is for our Oregon and Washington service area.

Look up the area where you live or get care beginning on page 9. Then find the location that you'll go to most often to find a list of doctors for that medical facility. The medical facilities are listed alphabetically within each area.

All providers in this publication are accepting new patients unless otherwise indicated. Asterisks (*) at the end of a provider name identify providers not accepting new patients.

If you have questions about Kaiser Permanente or require assistance in selecting a PCP, please call our Member Service Department at **1-877-221-8221** seven days a week, 8 a.m. to 8 p.m. TTY users should call **711**. You can also visit **kp.org/nw**.

Timely access to care

Your network provider must offer you an appointment within the time frames listed below. Please note this applies only to Primary Care Providers and Behavioral Health only.

Appointment Type	Must Offer Appointment Within
Emergency or urgently needed services	Immediate availability
Routine and Preventive care appointments	30 business days
Non-urgent/emergent care appointments (medical attention required)	7 business days

Medicare Diabetes Prevention Program

The Medicare Diabetes Prevention Program (MDPP) is designed to give you real-world training to promote healthier lifestyle habits such as long-term dietary changes, increased physical activity, and problem-solving techniques to overcome the challenges of weight loss.

MDPP services are a two-year program and a once per-lifetime benefit, per beneficiary. This program is covered as additional preventive services and there is no coinsurance, copayment, or deductible. MDPP services are furnished by MDPP suppliers in person, during scheduled classes.

Medicare beneficiaries are eligible for MDPP services if they are pre-diabetic (according to clinical criteria such as BMI and blood test results) and have not been diagnosed with diabetes or end-stage renal disease.

Durable Medical Equipment

Durable Medical Equipment (DME) requires prior authorization by the Health Plan ("prior authorization" means that the Health Plan must review and approve the item or service in advance). If your treating provider makes a referral or order for DME, this will be reviewed by the Health plan to determine criteria is met and that it is a covered item or service. **Note:** Durable medical equipment coverage is limited to the standard item of equipment that adequately meets your medical needs. We decide whether to rent or purchase the equipment, and we select the vendor. If you have any questions, please contact **1-800-813-2000** (TTY **711**).
