Referrals to affiliated community physicians/providers in Oregon and Washington

Affiliated community physicians/providers are not part of the Northwest Permanente Medical Group (NWPMG).

If your NWPMG physician decides that you require covered services not available internally from an NWPMG physician, he or she may refer you to an affiliated community physician/provider. You must have a written, authorized referral from Kaiser Foundation Health Plan of the Northwest to receive a covered service from an affiliated community physician/provider.*

Accessibility of medical offices and medical centers in this directory

All Kaiser Permanente facilities are accessible to members.

For members enrolled through the Federal Employees Health Benefits (FEHB) program

It is important to know that when you enroll in this Plan, services are provided through the Plan's delivery system as described in the Plan's federal brochure, but the continued participation of any one doctor, hospital, or other provider cannot be guaranteed.

All NWPMG physicians/providers speak English. If a provider speaks another language, it is included in the following pages.

Provider selection criteria

Kaiser Foundation Health Plan of the Northwest (KFHPNW) offers several networks that are comprised of the Kaiser Permanente integrated health care delivery system. The primary contracted provider groups and facilities that participate include: Northwest Permanente, P.C., Physicians and Surgeons, facilities owned and operated by Kaiser Foundation Hospitals (hospitals, Kaiser Permanente medical offices, Kaiser Permanente pharmacies), The Portland Clinic, The CHP Group, and contracted hospitals. In general, the networks contain physicians, specialists and facilities to provide services to individuals and groups covered under all Kaiser Permanente plans.

Prior to allowing network participation, providers must successfully complete the initial credentialing process and demonstrate their ongoing ability to meet credentialing standards through a re-credentialing process. Providers are required to provide the information needed to review and verify their credentials. To ensure quality and safety of care between re-credentialing cycles, Kaiser Permanente performs ongoing monitoring of the participating provider's performance. Kaiser Permanente acts on important quality or safety issues in a timely manner by taking appropriate action against a participating provider when occurrences of poor quality are identified.

We also monitor and analyze member feedback relating to network access, availability of providers, and cultural needs and preferences. This information helps guide our network improvement efforts.

If you are looking for a gender affirming treatment provider and can't find a provider close to you, please call our Member Services department at 1-800-813-2000 for help finding an in-network provider.

Tiered network criteria in Oregon and Washington
