**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT THE DRUGS WE COVER WHEN YOU PARTICIPATE IN A [GROUP / INDIVIDUAL PLAN] OFFERED BY KAISER PERMANENTE.**

This prescription drug formulary is effective as of 12/07/2021. This formulary document may vary depending on your health plan. This formulary is subject to change and all previous versions of the formulary no longer apply. All previously effective versions of the formulary no longer apply, and copies should be discarded to avoid misinterpretation.

For an electronic version of the formulary, or questions about which drug formulary applies to your plan, visit [kp.org/formulary](https://kp.org/formulary) or call our Member Service Contact Center 24 hours a day, seven days a week (closed holidays). 1-800-464-4000 English (and over 150 languages), 1-800-788-0616 Spanish, 1-800-757-7585 Chinese dialects, and 711 TTY for the deaf or hard of hearing.

That information can be found by referring to your *Evidence of Coverage* (EOC). To locate an EOC that includes cost sharing applicable to prescription drugs for health plan products which this formulary applies follow the instructions below:

Small Group: <https://www.coveredca.com/forsmallbusiness/>

For Large Group plans (covered through your employer, and employer has 101 or more employees): Contact Member Services at 844-554-9181 to request your *Evidence of Coverage* (EOC). Please have your employer's group number available, and if your group offers more than one plan, the name of the plan. (Your employer's group number can only be obtained from your employer.)

A drug benefit description for your outpatient prescription coverage for drugs, devices, and FDA approved products can be found in your EOC.

The presence of a drug on our drug formulary does not necessarily mean that your doctor will prescribe it for a medical condition. Your doctor will choose the appropriate therapy based upon medical necessity in their judgment.

If changes occur to the drug formulary or restrictions are added to a drug, and you are taking the drug affected by the change, you may be permitted to continue receiving that drug according to your drug benefit, if your doctor deems it medically necessary.

## Formulary Changes

Kaiser Permanente updates the formulary on a monthly basis. Drugs are added or removed from the California Commercial Formulary during the year, these changes to the Formulary are based on new information or new drugs that become available.

### These formulary changes may include:

Change in drug or dosage form - changes in tier placement of a drug that results in an increase in cost sharing; and any changes of utilization management restrictions, including any additions of these restrictions.

Brand to generic - when a generic version of a brand-name drug on our formulary becomes available and meets our standards, it usually replaces the brand-name drug on our formulary.

Therapeutic change - prescription is changed from one medication to another because we've decided the new drug is a better option based on standards of safety, effectiveness, or affordability.

## Informational

### Definitions

<b>Term</b>
<b>Brand name drug</b> is a drug that is marketed under a proprietary, trademark protected name. The brand name drug shall be listed in all CAPITAL letters.
<b>Coinsurance</b> is a percentage of the cost of a covered health care benefit that an enrollee

pays after the enrollee has paid the deductible, if a deductible applies to the health care benefit, such as the prescription drug benefit.
<b>Copayment</b> is a fixed dollar amount that an enrollee pays for a covered health care benefit after the enrollee has paid the deductible, if a deductible applies to the health care benefit, such as the prescription drug benefit.
<b>Deductible</b> is the amount an enrollee pays for covered health care benefits before the enrollee's health plan begins payment for all or part of the cost of the health care benefit under the terms of the policy.
<b>Drug Tier</b> is a group of prescription drugs that corresponds to a specified cost sharing tier in the health plan's prescription drug coverage. The tier in which a prescription drug is placed determines the enrollee's portion of the cost for the drug.
<b>Enrollee</b> is a person enrolled in a health plan who is entitled to receive services from the plan. All references to enrollees in this formulary template shall also include subscriber as defined in this section below
<b>Exception request</b> is a request for coverage of a prescription drug. If an enrollee, his or her designee or prescribing health care provider submits an exception request for coverage of a prescription drug, the health plan must cover the prescription drug when the drug is determined to be medically necessary to treat the enrollee's condition.
<b>Exigent circumstances</b> are when an enrollee is suffering from a health condition that may seriously jeopardize the enrollee's life, health, or ability to regain maximum function or when an enrollee is undergoing a current course of treatment using a nonformulary drug. Exigent circumstances are sometimes referred to as "urgent."
<b>Formulary</b> is the complete list of prescription drugs preferred for use and eligible for coverage under a health plan product, and includes all drugs covered under the outpatient prescription drug benefit of the health plan product. Formulary is also known as a prescription drug list.
<b>Generic drug</b> is the same drug as its brand name equivalent in dosage, safety, strength, how it is taken, quality, performance, and intended use. A generic drug is listed in <b><i>bold</i></b> and <b><i>italicized</i></b> lowercase letters.
<b>Nonformulary drug</b> is a prescription drug that is not listed on the health plan's formulary.
<b>Out-of-pocket cost</b> are copayments, coinsurance, and the applicable deductible, plus all costs for health care services that are not covered by the health plan.
<b>Prescribing provider</b> is a health care provider authorized to write a prescription to treat a medical condition for a health plan enrollee.
<b>Prescription</b> is an oral, written, or electronic order by a prescribing provider for a specific enrollee that contains the name of the prescription drug, the quantity of the prescribed drug, the date of issue, the name and contact information of the prescribing provider, the signature of the prescribing provider if the prescription is in writing, and if requested by the enrollee, the medical condition or purpose for which the drug is being prescribed.
<b>Prescription drug</b> is a drug that is prescribed by the enrollee's prescribing provider and requires a prescription under applicable law.
<b>Prior Authorization (PA)</b> is a health plan's requirement that the enrollee or the enrollee's prescribing provider obtain the health plan's authorization for a prescription drug before the health plan will cover the drug. The health plan shall grant a prior authorization when it is medically necessary for the enrollee to obtain the drug. Note: Kaiser Foundation Health Plan does not have a requirement for PA.
<b>Step Therapy (ST)</b> is a process specifying the sequence in which different prescription drugs for a given medical condition and medically appropriate for a particular patient are prescribed.

The health plan may require the enrollee to try one or more drugs to treat the enrollee's medical condition before the health plan will cover a particular drug for the condition pursuant to a step therapy request. If the enrollee's prescribing provider submits a request for step therapy exception, the health plans shall make exceptions to step therapy when the criteria is met. Note: Kaiser Foundation Health Plan does not have a requirement for Step Therapy.

**Subscriber** means the person who is responsible for payment to a plan or whose employment or other status, except for family dependency, is the basis for eligibility for membership in the plan.

### **What is the Kaiser Permanente California Commercial Formulary?**

The California Commercial Formulary is a list of covered drugs chosen by a group of Kaiser Permanente doctors and pharmacists known as the Pharmacy and Therapeutics Committee. The Committee meets regularly to evaluate and select drugs that are safe and effective for our members. This Formulary meets the requirements outlined under state law, regulations, and guidance for commercial plans.

### **What drugs are covered?**

Kaiser Permanente covers brand, generic, and specialty drugs listed on the California Commercial Formulary as long as the drug is medically necessary, the prescription is filled at a Kaiser Permanente, or an affiliated pharmacy, and other coverage rules are followed. If you are prescribed a drug on the California Commercial Formulary, that drug will be covered under the terms of your drug benefit.

### **What drugs are covered under the Medical vs. the Outpatient Prescription Drug Benefit?**

Administered drugs and products are medications and products that require administration or observation by medical personnel. These drugs and products are covered when prescribed by a Plan Provider, in accordance with our drug formulary guidelines, and they are administered to you in a Plan Facility or during home visits. Please refer to your *Evidence of Coverage* for further information.

### **Getting an exception to the formulary**

Drugs not listed on the formulary are called non-formulary drugs. When a Kaiser Permanente doctor, or an authorized referral doctor, determines that a non-formulary drug is medically appropriate and necessary, that drug will be covered under the terms of your benefits (if you have a prescription drug benefit). If you do not have a prescription drug benefit, you will be charged the full retail price for the drug.

You may consult with your Plan provider if an exception to the formulary is needed. You and your Plan provider are best able to determine your medication needs.

You may also contact Member Services, 24 hours a day, 7 days a week. If you wish to have a non-formulary drug that your doctor determines not to be medically necessary, you may file a grievance with Member Services by calling 1-800-464-4000.

If the Plan grants a member's standard exception request, the Plan will provide coverage of the non-formulary drug for the duration of the prescription, including refills. If the Plan grants an exception based on exigent (urgent) circumstances the Plan will provide coverage of the non-formulary drug for the duration of the exigency.

### **How do I ask for a coverage determination?**

You, your appointed representative, your Kaiser Permanente or affiliated doctor, or another prescriber can request a coverage determination.

A standard decision will be made within 72 hours. For urgent requests, an expedited (fast) decision will be made within 24 hours. For all exception requests, the timeframe begins when your doctor or other prescriber provides a supporting statement.

### **Are there any restrictions on the drugs covered on the Formulary?**

Some covered drugs may have additional requirements or limits on coverage, such as Quantity Limits. For certain drugs, Kaiser Permanente may limit the amount of the drug dispensed to a certain days' supply. For example, when there is a national shortage of a drug, we may limit the quantity of the drug dispensed. Additionally, current law limits the cost share (per prescription maximum) on oral anti-cancer drugs to no more than \$200 per 30-day supply.

### **Drugs and Supplies Related to the Treatment of Diabetes**

Kaiser Permanente covers medications, equipment, and supplies for the management and treatment of diabetes. The following items are included on the formulary and are covered under the terms of your drug benefit: insulin, ketone test strips and sugar or acetone test tablets or tapes for diabetes urine testing, pen delivery devices, disposable needles and syringes, and visual aids required to ensure proper dosage. Other equipment and supplies, such as insulin pumps, blood glucose monitors, blood glucose test strips, and lancets and lancet devices, are covered under the terms of your Durable Medical Equipment (DME) benefit. Please refer to your EOC for more information on coverage.

### **Preventive Drugs**

Preventive health drugs are select drugs required by law to be covered at no charge to members in select plans. Preventive health drugs are determined based upon evidence-based recommendations by the United States Preventive Services Task Force (USPSTF) with a rating of "A" or "B". You can find preventive health drugs on the formulary by locating drugs with "PREV" listed in column 3. Please refer to your EOC for more information on coverage.

### **Contraceptives**

Contraceptives are drugs or devices, such as diaphragms, sponges, or cervical caps, that help prevent pregnancy. Kaiser Permanente covers select FDA-approved contraceptive drugs, devices and other products, including prescribed over-the-counter items, at no charge to members in select plans.\* Please refer to your EOC for more information on coverage.

\*This does not apply to religious employers who have requested a health care service plan contract without coverage for FDA-approved contraceptive methods that are contrary to the religious employer's religious tenets.

### **What drugs are eligible to be mailed from the mail order pharmacy?**

Most drugs can be mailed from our mail order pharmacy. Some drugs (for example, drugs that are extremely high cost or require special handling) may not be eligible for mailing. Drugs cannot be mailed outside the United States.

You can order refills through our mail-order service online at [kp.org/refill](https://kp.org/refill) or by phone or mobile app. There is no extra charge for mail order. The appropriate cost share (according to your prescription drug benefit) will apply.

Your prescription drug benefit may have a lower cost share if you use the mail order pharmacy. Please refer to your *Evidence of Coverage* for complete details of your prescription drug benefit.

### **How to locate a pharmacy and refill your prescriptions?**

Please refer to your electronic member guidebook at [kp.org/eGUIDEBOOK](http://kp.org/eGUIDEBOOK) for a complete listing of network pharmacies available to you or contact Member Services.

### **Refill online**

Visit [kp.org/refill](http://kp.org/refill) to order refills and check the status of your orders. If it's your first time placing a refill order online, please create an account by visiting [kp.org/register](http://kp.org/register).

### **Refill by phone**

Call the pharmacy refill number on your prescription label. Have your medical record number, prescription number, home phone number, and credit or debit card information ready when you call.

### **How do I use the formulary?**

The drugs are listed alphabetically under the column titled "Prescription Drug Name" by its brand or generic name under the therapeutic category and class to which it belongs. You can search this list using the brand or generic name of the drug by: Searching for the category or class to which the drug belongs and search for the name of the drug in alphabetical order or searching the alphabetical index of drugs by the name of the drug.

Listing a drug on the formulary does not guarantee that it will be prescribed by your doctor or prescriber.

### **Medical condition**

The formulary begins on page 11. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, "Cardiovascular Drugs." If you know what your drug is used for, look for the category name in the list that begins on page 2. Then look under the category name for your drug.

### **Alphabetical listing**

If you are not sure what category to look under, you should look for your drug in the index that begins on page 101. The index provides an alphabetical list of all the drugs included in this document. Look in the index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the index and find the name of your drug in the first column of the list.

### **Formulary Legend**

#### **Column 1:**

A drug is listed alphabetically by its brand and generic names in the therapeutic category and class to which it belongs.

The generic name of a brand name drug is included after the brand name in parenthesis and all bold and italicized lowercase letters.

If a generic equivalent for a brand name drug is available, and both the brand name and generic equivalents are covered, the generic drug will be listed separately from the brand name drug in all bold and italicized lowercase letters.

If a generic drug is marketed under a proprietary, trademark protected brand name, the brand name is listed in all CAPITAL letters after the generic name in parentheses and regular typeface with first letter of each word capitalized.

<b>Example</b>	
Generic drug	<i>atorvastatin calcium</i>
Generic drug marketed with a brand name	[Ethinodiol Diacet & Eth Estrad] ZOVIA 1/35E (28) TABS 1-35 MG-MCG
Brand	ADVAIR DISKUS AEPB 250-50 MCG/DOSE <i>[fluticasone-salmeterol]</i>

All dosage **forms** and **strengths** for a particular drug listed **may not be on the Formulary**. Some drugs have multiple dosage forms. In such cases, some dosages may be on the Formulary and others not.

Some of these drugs may be available only in a clinic setting and your applicable cost share may apply.

**Column 2:**

The second column, “Drug Tier,” will indicate what tier number the drug is in. Drugs on the California Commercial Formulary are categorized:

<b><u>Tier 1</u></b> – Generic Tier
<b><u>Tier 2</u></b> – Brand Tier
<b><u>Tier 4</u></b> – Specialty Tier

The formulary is a list of covered drugs. The Plan considers drugs placed on Tier 1 (Generic) and Tier 2 (Brand) as preferred drugs.

**What are generic drugs?**

A generic drug is approved by the FDA as having the same active ingredient as the brand-name drug. Generally, generic drugs cost less than brand-name drugs.

**What are brand-name drugs?**

Brand-name drugs are manufactured and sold by the pharmaceutical company that originally researched and developed the drug. When the patent on a brand-name drug expires, other pharmaceutical companies may manufacture and sell an FDA-approved generic version of the drug with the same active ingredient(s) at lower prices.

**What are Specialty drugs**

Specialty drugs are very high-cost drugs approved by the FDA that are on our formulary.

For information on cost sharing for each drug tier and any applicable dollar maximums in your health plan benefit package, refer to the “Cost Share Summary” of your EOC (*Evidence of Coverage*).

If Charges for Services are less than the Copayment described in your EOC, you will pay the lesser amount, subject to any applicable deductible or out-of-pocket maximum.

Note: The tier in which a generic or brand drug is classified under may change at any time during the year. Additionally, certain brand drugs may be covered at the cost share that applies for Tier 1 and certain generic drugs may be covered at the Tier 2 cost share. Tier 4 is for specialty drugs that

are covered at a higher cost share.

**Column 3:**

The third column of the chart will indicate any requirements or limits for that drug.

Una queja es una expresión de inconformidad que manifiesta usted o su representante autorizado a través del proceso de quejas. Una queja incluye una queja formal o una apelación. Por ejemplo, si usted cree que ha sufrido discriminación de nuestra parte, puede presentar una queja. Consulte su *Evidencia de Cobertura (Evidence of Coverage)* o *Certificado de Seguro (Certificate of Insurance)*, o comuníquese con un representante de Servicio a los Miembros (Member Services) para conocer las opciones de resolución de disputas que le corresponden. Esto tiene especial importancia si es miembro de Medicare, MediCal, MRMIP (Major Risk Medical Insurance Program, Programa de Seguro Médico para Riesgos Mayores), MediCal Access, FEHBP (Federal Employees Health Benefits Program, Programa de Beneficios Médicos para los Empleados Federales) o CalPERS ya que dispone de otras opciones para resolver disputas.

Puede presentar una queja de las siguientes maneras:

- completando un formulario de queja o de reclamación/solicitud de beneficios en una oficina de Servicio a los Miembros ubicada en un centro del plan (consulte las direcciones en *Su Guía*)
