(KPIC)
PPO and Out-of-Area Indemnity (OOA)
Drug Formulary
This Drug Formulary was updated: June 1, 2024**

NOTE: This drug formulary is updated often and is subject to change. Upon revision, all previous versions of the drug formulary are no longer in effect.

This document contains information regarding the drugs that are covered when you participate in the California Grandfathered PPO and Out-of- Area Indemnity (OOA) Health Insurance Plans for Large Groups offered by Kaiser Permanente Insurance Company(KPIC) and fill your prescription at a MedImpact network pharmacy. Please note that this Formulary does not have a specialty drug tier. If you are covered by a KPIC PPO plan with a specialty drug tier, please see the KPIC PPO and Out-of- Area Indemnity (OOA) Formulary with Specialty Drug Tier.

Access to the most current version of the Formulary can be obtained by visiting: **kp.org/kpic-ca-rx-ppo-gf**.

For help understanding your KPIC insurance plan benefits, including cost sharing for drugs under the prescription drug benefit and under the medical benefit, please call **1-800-788-0710 or 711 (TTY)** Monday through Friday, 7 a.m. to 7 p.m.

For help with this Formulary, including the processes for submitting an exception request and requesting prior authorization and step therapy exceptions, please call MedImpact 24 hours a day, 7 days a week, at **1-800-788-2949 or 711 (TTY)**.

For information about your cost share for the outpatient prescription drug benefits in your specific plan, please visit: **kp.org/kpic-ca-rx-ppo-gf**.

For help in your preferred language, please see the “Kaiser Permanente Insurance Company Notice of Language Assistance” in this document.

FORMULARY INFORMATION

Notice: The Formulary is updated with changes on a monthly basis. Updates will be effective on the first day of the month. During the policy year, the following types of changes may be made:

- Removal of a drug or dosage form of a drug from the Formulary;
- A change in tier placement of a drug that results in an increase or decrease in cost sharing; and
- Adding or changing utilization management procedures applicable to a drug.

How to Use This Document

This Formulary provides a list of the approved prescription medications covered under your KPIC Grandfathered PPO or OOA health insurance plan. This document applies only to prescribed outpatient prescription drugs obtained through a retail pharmacy within the MedImpact network. This document does not apply to medications administered in the doctor's office or in the hospital which are covered under your medical benefit. For information on drugs covered under your medical benefit, please see the General Benefits section of your *Certificate of Insurance*.

The Formulary may be accessed using either the categorical list of drugs or the alphabetical index. The categorical list of drugs in this Formulary groups drugs into drug categories and class based on the First National Databank (FDB), a widely-accepted independent drug classification system.

A prescription drug may be located by looking up the therapeutic category and class to which the drug belongs or the brand or generic name of the drug in the alphabetical index. A drug is listed alphabetically by the brand and generic name in the therapeutic category and class to which it belongs. The generic name for a brand name drug is included after the brand name in parentheses and all lowercase italicized letters. If a generic equivalent for a brand name drug is both available and covered, the generic drug will be listed separately from the brand name drug in all lowercase italicized letters. If a generic drug is marketed under a proprietary, trademark protected brand name, the brand name will be listed after the generic name in parentheses and regular typeface with the first letter of each word capitalized. If a generic equivalent for a brand name drug is not available on the market or is not covered, the drug will not be separately listed by its generic name.

EXAMPLE of how drugs are listed on the Formulary:

Brand name drug. The brand name antibiotic drug "Moxatag" would be listed as follows:

Under the Prescription Drug Name Column, therapeutic category "ANTI-INFECTIVE AGENTS", drug class "AMINOPENICILLIAN ANTIBIOTIC – ANTIBIOTICS", the prescription brand name drug is listed in all capital letters, "MOXATAG" followed by the generic equivalent of the drug shown in parenthesis, all lower case italicized "(amoxicillin)".

| | |
|--|---|
| ANTI-INFECTIVE AGENTS – DRUGS FOR INFECTIONS | |
| AMINOPENICILLIAN ANTIBIOTIC – ANTIBIOTICS | |
| MOXATAG ORAL TABLET, ER MULTIPHASE 24 HR 775 MG (<i>amoxicillin</i>) | 2 |

Generic drug. The generic antibiotic drug "amoxicillin" would be listed as follows:

Under the therapeutic category "ANTI-INFECTIVE AGENTS", drug class "AMINOPENICILLIAN ANTIBIOTIC – ANTIBIOTICS", the prescription generic drug is listed in lower case italics "*amoxicillin*".

| | |
|--|---|
| ANTI-INFECTIVE AGENTS – DRUGS FOR INFECTIONS | |
| AMINOPENICILLIAN ANTIBIOTIC – ANTIBIOTICS | |
| <i>amoxicillin oral capsule 250 mg, 500 mg</i> | 1 |

Drug Tiers

Tier Benefit Design

The Formulary applies to a tier benefit design, where the insured shares the cost of prescription drug therapy based on the drug's tier and copay or coinsurance. In most instances, generically available drugs will be covered in a separate lower tier (lower copay), and branded drugs listed on the Formulary will be covered under a higher tier (higher copay).

If you request a brand-name drug when a generic drug is prescribed, you may be responsible for paying the brand-name copay plus the difference in cost between the generic drug and the brand-name drug. Please see your *Certificate of Insurance* for details.

For all drugs within the Drug Formulary table, the tier level is denoted throughout the document using the following symbols (*refer to table below*).

Tier Definitions:

| Symbol | Guideline | Description |
|--------|-----------------------------|--|
| T1 | Tier 1 | Generic Drugs |
| T2 | Tier 2 | Brand Name Drugs |
| T3 | Tier 3 | Other pharmacy items and certain DME, such as test strips and lancets, available at the pharmacy and through your medical benefit |
| T4 | Tier 4 | Self-Administered Injectable Drugs |
| PV | Preventive (multiple tiers) | Preventive-care benefits required under the Affordable Care Act (ACA). (Preventive Drugs covered at no cost if your group elected to include ACA preventive-care benefits under their grandfathered plan.) Tobacco cessation drugs listed on this formulary are covered at no cost on all plans. |

Maintaining and Updating the Formulary

The MedImpact Healthcare Systems Pharmacy and Therapeutics (P&T) and Formulary Committees provide physicians and pharmacists with a method to evaluate the safety, efficacy and competitive prices for commercially available drug products. The MedImpact P&T and Formulary Committees meet quarterly and more often as warranted to ensure clinical relevancy of the Formulary.

The Formulary is updated by the MedImpact P&T and Formulary Committees using a structured approach to the drug selection process to ensure continuing patient access to rational drug therapies.

The MedImpact P&T and Formulary Committees use the following criteria in the evaluation of drug selection for the Formulary:

- Drug safety profile
- Drug efficacy
- Comparison of relevant therapeutic benefits to current formulary drugs of similar use, and to minimize therapeutic duplication where possible
- Lower costs relative to comparable therapies

What medications are covered?

Your prescription drug benefit will generally cover prescribed generic and brand-name drugs listed on the Formulary if the drug is medically necessary, the prescription is filled by a MedImpact network pharmacy provider, and other coverage rules are followed. Over-the-counter (OTC) medications are not generally covered, however, certain preventive OTC medications are covered when prescribed by a physician, such as over the counter FDA-approved female contraceptives, and some durable medical equipment, prescribed by a physician to treat diabetes, and inhalation spacers to assist with inhalation devices are also covered.

The Formulary lists the pharmacy benefits covered under your outpatient prescription drug benefit and obtained from a MedImpact network participating retail pharmacy. This Formulary does not apply to drugs and devices that are obtained through the medical benefit portion of your coverage: for example, medications provided or administered in the doctor's office or in the hospital or, unless specifically stated otherwise, devices covered under the Durable Medical Equipment benefit that are obtained at the doctor's office or through a Durable Medical Equipment vendor.

Diabetes medication and equipment. Your outpatient prescription drug coverage includes the following prescription items for the management and treatment of diabetes:

- Insulin
- Needles and syringes for injecting insulin
- Prescriptive medications for the treatment of diabetes
- Glucagon

Other pharmacy items. Some Durable Medical Equipment that is covered through your medical benefit is also available at the pharmacy: disposable blood glucose and ketone urine test strips; blood glucose monitors; lancets and lancet puncture devices; pen delivery systems for the administration of insulin; visual aids excluding eyewear to assist in insulin dosing; and peak flow meters.

Contraceptives. Your outpatient prescription drug coverage includes all prescribed FDA-approved contraceptive drugs, including over the counter FDA-approved female contraceptive methods when prescribed by a licensed health care professional authorized to prescribe drugs. All such medications require a prescription from your doctor.

Elective coverage of preventive drugs at no cost. Additionally, if your plan covers preventive drugs at no cost (because your group elected to include preventive-care benefits required under the Affordable Care Act in their grandfathered plan), then the drugs identified in the table below are covered at no cost share regardless of the drug tier indicated on the Formulary. All medications in the list are covered with no cost if the insured has a prescription from his or her doctor. However, some medications are only covered at no cost for patients who meet the criteria listed in the Formulary.

Note: The presence of a prescription drug on the Formulary does not guarantee that you will be prescribed that prescription drug by your prescribing provider for a particular medical condition.

Note: The cost share for covered prescribed orally administered anti-cancer drugs shall not exceed \$200 for a 30-day supply.

What drugs are not covered?

- Over-the-counter (OTC) medications or their equivalents, except for those OTC medications included in this Formulary.
- Any drug products used for cosmetic purposes.
- Experimental drug products or any drug product used in an experimental manner. Refer to your *Certificate of Insurance* for additional information.
- Replacement of lost or stolen medication.
- Medications administered by a clinician unless otherwise specified in the Formulary listing.
- Foreign-sourced drugs or drugs not approved by the U.S. Food & Drug Administration, except in certain cases of drug shortage, when allowed under the individual's pharmacy benefit.
- Weight loss drugs
- Sexual dysfunction drugs

Non-formulary drugs

Non-formulary drugs are covered when medically necessary.

How do I request an exception to the KPIC Formulary?

You, your designee, or your prescribing provider can request an exception to obtain coverage of a drug that is not on the Formulary by calling MedImpact at **1-800- 788-2949**. Upon receipt of your exception request, MedImpact will notify you within 72 hours for non-urgent requests and within 24 hours if exigent circumstances exist of the request approval or other outcome. (Urgent circumstances exist when an insured is suffering from a health condition that may seriously jeopardize the insured's life, health or ability to regain maximum function or when you are using a drug while undergoing a current course of treatment.) If a standard exception request is granted, coverage of the non-formulary drug will be granted for the duration of the prescription, including refills. If an exception based on urgent circumstances is granted, coverage of the non-formulary drug will be granted for the duration of the urgency. You may appeal the denial of an exception request. Please refer to your *Certificate of Insurance* for more information on appeal rights and procedures.

Are there any restrictions on the drugs covered on the KPIC Formulary?

Yes, for certain drugs within the Formulary, a recommended prescribing guideline may apply. These are denoted throughout the document using the following symbols (*refer to table below*).

Guideline Symbol Table:

| Symbol | Guidelines | Description |
|--------|---------------------|--|
| AGE | Age Edit | Coverage depends on patient age. |
| PA | Prior Authorization | Requires a prior authorization based on specific clinical criteria. <i>See "What is a Prior Authorization?" below for additional information.</i> |
| QL | Quantity Limit | Coverage is limited to specific quantities per prescription and/or time period. Prior authorization is required for quantities exceeding the restriction. |
| ST | Step Therapy | Coverage depends on previous use of another drug. Prior authorization may be required. <i>See "What is Step Therapy?" below for additional information.</i> |

What is a Prior Authorization?

A prior authorization (“PA”) is a technique that is used to encourage safe and competitively priced medication use. Many drugs have multiple indications, so PAs are placed on drugs to make sure the drug is appropriate and safe for the insured.

How does the program work? Drugs marked with a PA mean that your prescriber must first show that you have a medically necessary need for that particular drug. This means that to receive coverage your prescriber will need to work with MedImpact to receive pre-approval of the drug. Prior authorized drugs have specific clinical criteria that you must meet in order to obtain coverage. Prior authorized drugs have specific clinical criteria that you must meet in order to obtain coverage. Refer to Prior Authorization / Limits column in the Formulary for drugs that require a PA.

Upon receipt of your PA request, MedImpact will notify the licensed prescribing provider within 72 hours for non-urgent requests and within 24 hours if urgent circumstances exist of the request approval or other outcome. If MedImpact fails to respond within 72 hours for non-urgent requests, and within 24 hours if urgent circumstances exist, from receipt of a request form from a licensed doctor; the request shall be deemed to have been approved. If you are not satisfied with the outcome, you can request a waiver by calling MedImpact at **1-800-788-2949**.

What are Quantity Limits?

Coverage for certain drugs may be limited to specific quantities per prescription and/or time period. Prior authorization is required for quantities exceeding the quantity limit guideline.

What is Step Therapy?

Selected prescription drugs require step therapy. The step therapy program encourages safe and competitively priced medication use. Under this program, a “step” approach is required to receive coverage for certain high-cost medications. This means that to receive coverage you may need to first try a proven, lower cost medication before using a more costly treatment.

How does the program work? The step therapy program requires that you have a prescription history for a “first-line” medication before your benefit plan will cover a “second-line” medication. A first-line medication is recognized as safe and effective in treating a specific medical condition, as well as keeping costs down. A second-line medication is a less-preferred or sometimes more costly treatment option. Refer to Step Therapy Edits in the Index section at the end of the Formulary for a complete list of medications requiring step therapy and their criteria.

Prior authorization may be required. Upon receipt of your request for a second-line drug, MedImpact will notify the licensed prescribing provider within 72 hours for non-urgent requests and within 24 hours if urgent circumstances exist of the request approval or other outcome. If you are not satisfied with the outcome, you can request a waiver by calling MedImpact at **1-800-788-2949**.

Note: If you have transitioned from a prior health insurance coverage to a new KPIC health insurance policy, any prescription drug that is currently being prescribed and considered safe and effective to treat a medical condition may not be subject to step therapy if, under your prior coverage:

- 1) The drug was not previously subject to step therapy; or
- 2) Step therapy was already obtained.

This does not apply if MedImpact’s P&T Committee and/or your provider determines that such drug is no longer safe or effective to treat your medical condition. Prior authorization may be required for the continued coverage of a prescription drug prescribed pursuant to step therapy imposed under your prior coverage, and the prescribing provider is not precluded from prescribing another drug covered by the new policy that is medically appropriate for your condition.

The Pharmacy Network

This drug Formulary only applies to prescribed drugs, medicines and supplies purchased from a MedImpact network retail pharmacy. To fill your covered prescriptions, please visit a MedImpact network pharmacy. When visiting a MedImpact network pharmacy, please give the pharmacist your KPIC ID card with the MedImpact logo. The network of MedImpact pharmacies includes over 60,000 chain and independent pharmacies nationwide. To find a MedImpact network pharmacy near you, call **1-800-788-2949**.

What drugs are eligible to be mailed from the mail-order pharmacy?

Most maintenance drugs can be mailed from our mail-order pharmacy. Drugs eligible for mail order, however, cannot be mailed outside the United States. You can order refills through our mail-order service online at **walgreens.com/mailservice** or by phone, **1-866-525-1590** or **1-877-924-7889 (TTY)**. There is no extra charge for mail order. The appropriate out-of-pocket cost according to your prescription drug benefit will apply.

Please refer to your *Certificate of Insurance* for complete details of your prescription drug benefit or call KPIC Customer Service at **1-800-788-0710**.

Benefit Coverage and Limitations

This printed Formulary does not provide information regarding the specific coverage and limitations you may be subject to. Specific benefit inclusions, exclusions, and out-of-pocket costs are not reflected in the Formulary.

The Formulary applies only to outpatient drugs provided to you and does not apply to medications used in an inpatient setting. For specific questions regarding your coverage, please call KPIC Customer Service at **1-800-788-0710**.

Definition of Terms

The following terms apply to your prescription drug coverage and the drug Formulary.

“Brand name drug” means a drug that is marketed under a proprietary, trademark-protected name. A brand name drug is listed in this Formulary in all CAPITAL letters.

“Coinsurance” means a percentage of the cost of a covered health care benefit that you pay after you have paid the deductible, if a deductible applies to the health care benefit.

“Copayment” means a fixed dollar amount that you pay for a covered health care benefit after you have paid the deductible, if a deductible applies to the health care benefit.

“Deductible” means the amount you pay for covered health care benefits that are subject to the deductible before your health insurer begins to pay. If your health insurance policy has a deductible, it may have either one deductible or separate deductibles for medical benefits and prescription drug benefits. After you pay your deductible, you usually pay only a copayment or coinsurance for covered health care benefits. Your insurance company pays the rest.

“Drug Tier” means a group of prescription drugs that correspond to a specified cost sharing tier in your health insurance policy. The drug tier in which a prescription drug is placed determines your portion of the cost for the drug.

“Exception request” means a request for coverage of a non-formulary drug. If you, your designee, or your prescribing health care provider submits a request for coverage of a non-formulary drug, your insurer must cover the non-formulary drug when it is medically necessary for you to take the drug.

“Exigent circumstances” means when you are suffering from a medical condition that may seriously jeopardize your life, health, or ability to regain maximum function, or when you are undergoing a current course of treatment using a non-formulary drug.

“Formulary” or “prescription drug list” means the list of drugs that is covered by your health insurance policy under the prescription drug benefit of the policy.

“Generic drug” means a drug that is the same as its brand name drug equivalent in dosage, strength, effect, how it is taken, quality, safety, and intended use. A generic drug is listed in this Formulary in italicized lowercase letters.

“Medically Necessary” means health care benefits needed to diagnose, treat, or prevent a medical condition or its symptoms and that meet accepted standards of medicine. Health insurance usually does not cover health care benefits that are not medically necessary. The fact that a Physician may prescribe, authorize, or direct a service does not of itself make it Medically Necessary or covered by the Group Policy.

“Non-formulary drug” means a prescription drug that is not listed on this Formulary.

“Out-of-pocket costs” means your expenses for health care benefits that aren’t reimbursed by your health insurance. Out-of-pocket costs include deductibles, copayments, and coinsurance for covered health care benefits, plus all costs for health care benefits that are not covered.

“Over-the-counter (OTC) drugs” are medicines sold directly to a consumer without requiring a prescription from a healthcare professional. For purposes of this Formulary, OTC drugs that are covered under your outpatient prescription drug benefit require a prescription from your doctor.

“Prescribing provider” means a health care provider who can write a prescription for a drug to diagnose, treat, or prevent a medical condition.

“Prescription” means an oral, written, or electronic order from a prescribing provider authorizing a prescription drug to be provided to a specific individual.

“Prescription drug” means a drug that by law requires a prescription.

“Prior Authorization” means a decision by your health insurer that a health care benefit is medically necessary for you. If a prescription drug is subject to prior authorization in this Formulary, your prescribing provider must request approval from your health insurer to cover the drug before you fill your prescription. Your health insurer must grant a prior authorization request when it is medically necessary for you to take the drug.

“Self-injectable drug” means a self-administered injectable medication that is covered under the outpatient prescription drug benefit. Self-injectable drugs (except for insulin and other prescriptive self-administered injectable medications for treatment of diabetes) are covered under a specific drug tier, as indicated in the Tier Definition table under the Drug Tier section in this Formulary.

“Step therapy” means a specific sequence in which prescription drugs for a particular medical condition must be tried. If a drug is subject to step therapy in this Formulary, you may have to try one or more other drugs before your health insurance policy will cover that drug for your medical condition. If your prescribing provider submits a request for an exception to the step therapy requirement, your health insurer must grant the request when it is medically necessary for you to take the drug.
