## **¿Cuál es la lista de medicamentos recetados disponibles para la atención médica administrada de Kaiser Permanente Medi-Cal California?**

La lista de medicamentos recetados disponibles para la atención médica administrada de Medi-Cal California es una lista de medicamentos cubiertos elegidos por un grupo de médicos y farmacéuticos de Kaiser Permanente, conocidos como el Comité de Farmacia y Terapéutica. Este comité se reúne con regularidad para evaluar y elegir los medicamentos más seguros y eficaces para nuestros miembros. Esta lista de medicamentos recetados disponibles cumple con los requisitos de la legislación, los reglamentos y las guías estatales de los planes de atención médica administrada de Medi-Cal.

## **¿Qué medicamentos están cubiertos?**

Kaiser Permanente cubre medicamentos de marca, genéricos y especializados que aparecen en la lista de medicamentos recetados disponibles para la atención médica administrada de Medi-Cal California, siempre y cuando el medicamento sea necesario desde el punto de vista médico, la receta se surta en Kaiser Permanente o en una farmacia asociada y se cumpla con otras reglas de cobertura.

Si le recetan un medicamento que se encuentra en la lista de medicamentos recetados disponibles para la atención médica administrada de Medi-Cal California, ese medicamento estará cubierto de acuerdo con los términos de su beneficio de medicamentos.

## **Cómo obtener una excepción a la lista de medicamentos recetados disponibles**

Los medicamentos que no aparecen en la lista de medicamentos recetados disponibles se llaman medicamentos no incluidos en la lista de medicamentos recetados (*non-formulary*).

Cuando un médico de Kaiser Permanente determina que un medicamento no incluido en la lista de medicamentos recetados disponibles es apropiado y necesario desde el punto de vista médico, ese medicamento estará cubierto de acuerdo con los términos de sus beneficios (si tiene un beneficio para medicamentos de venta con receta). Si no tiene cobertura para cierta clase de medicamentos recetados (por ejemplo, disfunción sexual e infertilidad), se le cobrará el precio total de venta del medicamento.

Puede consultar con su médico si se necesita hacer una excepción a la lista de medicamentos recetados disponibles. Usted y su médico son las personas más indicadas para determinar sus necesidades de medicamentos.

También puede comunicarse con el Servicio a los Miembros, las 24 horas del día, los 7 días de la semana. Si desea recibir un medicamento que no pertenece a la lista de medicamentos recetados disponibles que su médico determina que no es necesario desde el punto de vista médico, puede presentar una queja formal ante Servicio a los Miembros.

### **¿Hay alguna restricción sobre los medicamentos cubiertos en la lista de medicamentos recetados disponibles?**

Algunos medicamentos cubiertos pueden tener requisitos o límites de cobertura adicionales, como los límites de cantidad. Para algunos medicamentos, Kaiser Permanente puede limitar la cantidad del medicamento entregado a ciertos días de suministro. Además, cuando hay escasez de un medicamento en el país, podríamos limitar la cantidad del medicamento suministrado.

### **¿Qué es un medicamento de marca?**

Por lo general, la fabricación y venta de los medicamentos de marca está a cargo de la compañía farmacéutica que realizó la investigación y desarrolló el medicamento en un primer lugar. Cuando vence la patente de un medicamento de marca, otras compañías farmacéuticas pueden fabricar y vender la versión genérica del medicamento, aprobada por la Administración de Alimentos y Medicamentos de los Estados Unidos (FDA), que contiene el mismo (o los mismos) principio(s) activo(s) a precios más bajos.

### **¿Qué es un medicamento genérico?**

Un medicamento genérico está aprobado por la FDA como un medicamento que contiene el mismo principio activo que el medicamento de marca. Por lo general, los medicamentos genéricos cuestan menos que los de marca.

### **¿Qué es un medicamento especializado?**

Los medicamentos especializados son medicamentos aprobados por la FDA que tienen un costo muy alto, que están incluidos en nuestra lista de medicamentos recetados disponibles y que se usan para tratar afecciones crónicas complejas, tales como artritis reumatoide, esclerosis múltiple o cáncer.

### **¿Cuáles son los medicamentos elegibles para envíos por parte de la farmacia de pedidos por correo?**

La mayoría de los medicamentos se pueden enviar desde nuestra farmacia de pedidos por correo.

Algunos medicamentos (por ejemplo, los que tienen un costo extremadamente alto o que requieren un manejo especial) no se pueden pedir por correo. Los medicamentos no se pueden enviar por correo fuera de los Estados Unidos.

Puede pedir en línea el resurtido por medio de nuestro servicio de pedidos por correo en [kp.org/refill](http://kp.org/refill) o por teléfono o aplicación móvil. No hay cargos adicionales de franqueo postal. Se aplicará el costo compartido adecuado (de acuerdo con su beneficio de medicamentos de venta con receta).

Para obtener una descripción completa de su beneficio de medicamentos de venta con receta, consulte su *Evidencia de Cobertura (Evidence of Coverage)*.

### **Lista de medicamentos recetados disponibles para la atención médica administrada de Kaiser Permanente Medi-Cal California**

Kaiser Permanente podrá agregar o eliminar algunos medicamentos de la lista de medicamentos recetados disponibles para la atención médica administrada de Medi-Cal California durante el año. Estos cambios a la lista de medicamentos recetados disponibles se basan en la nueva información o los nuevos medicamentos disponibles.

### **¿Cómo uso la lista de medicamentos recetados disponibles?**

Hay dos maneras de buscar su medicamento en la lista de medicamentos recetados disponibles:

#### **Afección médica**

La lista de medicamentos recetados disponibles empieza en la página 5. Los medicamentos de esta lista de medicamentos recetados disponibles están agrupados en categorías según el tipo de afección médica para la cual se use el medicamento. Por ejemplo, los medicamentos que se usan para tratar afecciones del corazón figuran en la categoría “Medicamentos cardiovasculares” (*Cardiovascular Drugs*). Si sabe para qué se usa su medicamento, busque el nombre de la categoría en la lista que comienza en la página 5. Luego, busque en esta categoría el nombre de su medicamento.

#### **Listado en orden alfabético**

Si no está seguro de en qué categoría debe buscar, busque su medicamento en el índice que comienza en la página 95. El índice ofrece una lista en orden alfabético de todos los medicamentos que figuran en este documento. Consulte el índice y busque su medicamento. Junto al nombre del medicamento, verá el número de la página donde encontrará información sobre la cobertura. Pase a la página señalada en el índice y busque el nombre de su medicamento en la primera columna de la lista.

La primera columna de la tabla contiene el nombre del medicamento. Los medicamentos de marca aparecen con letras mayúsculas (p. ej., ALBENZA) y los genéricos con letras minúsculas y en cursiva (p. ej., *amoxicilina*).

Es posible que **no aparezcan** todas las **dosificaciones y concentraciones** para un medicamento particular listado en la **lista de medicamentos recetados disponibles**. Algunos medicamentos pueden tener múltiples formas farmacéuticas. En esos casos, algunas dosis pueden estar en la lista de medicamentos recetados disponibles, mientras que otras no.

**Importante:** Algunos de estos medicamentos pueden solo estar disponibles para su entrega en una clínica.

La segunda columna, “Nivel del medicamento”, indicará el número del nivel del medicamento: Los medicamentos en la lista de medicamentos recetados disponibles para la atención médica administrada de Medi-Cal California se incluyen en el grupo 1.

La tercera columna del cuadro indicará cualquier requisito o límite para ese medicamento:

**QL** = Límites de cantidad. La cantidad que puede recibir puede estar limitada en el caso de algunos medicamentos. Además, cuando hay escasez de un medicamento en el país, podríamos limitar la cantidad del medicamento suministrado.

**LD** = Los medicamentos de distribución limitada solo se pueden obtener en ciertas farmacias especializadas. Para encontrar una farmacia especializada, consulte nuestra guía electrónica para miembros en **kp.org/eguidebook** (bajo el directorio del centro) o comuníquese con Servicio a los Miembros.

**OTC** = Over-the-Counter

En su guía electrónica para miembros en **kp.org/eguidebook**, encontrará una lista completa de farmacias de la red disponibles para usted, o puede comunicarse con Servicio a los Miembros.
