Medicare overview

Understanding Parts A, B, C, and D

Medicare is a federal health insurance program that provides health care coverage to millions of Americans. It's part of Social Security and designed to protect the health and well-being of those who use it.

There are 4 parts to Medicare: A, B, C, and D. Each part covers specific services, from medical care to prescription drugs. On the following page, you can read about each part to better understand what coverage best fits your needs.

Helpful resources

Every year in late September, Medicare-eligible households receive the *Medicare & You* handbook by mail. This official handbook has important information about Medicare benefits, costs, rights and protections, health and drug plans, and answers to common questions. Keep your handbook as a reference tool throughout the year.

If you have questions, here are some additional resources:

The 4 parts of Medicare

PART A	PART B
Hospital insurance <ul style="list-style-type: none"> • Inpatient care • Skilled nursing facility care • Home health care <p>You pay no premium if you or your spouse paid Medicare taxes for at least 10 years while working.</p>	Medical insurance <ul style="list-style-type: none"> • Services from doctors and other health care providers • Outpatient care • Durable medical equipment <p>You pay a monthly premium.</p>
PART C	PART D
Medicare Advantage <p>A Medicare-approved plan from a private company that offers an alternative to Original Medicare for your health and drug coverage. Bundles Part A, Part B, and usually Part D.</p>	Prescription drug coverage <p>Helps cover the cost of prescription drugs, including many recommended shots or vaccines.</p>

Additional notes

- Original Medicare includes Medicare Part A (hospital insurance) and Medicare Part B (medical insurance) and is provided by the U.S. government as a federal health insurance program.
- With Original Medicare alone, you will pay deductibles and coinsurance for most services.
- Medicare Advantage plans (Part C) offer all the benefits of Original Medicare but usually have lower and more predictable out-of-pocket costs, and may offer extra benefits not covered by Original Medicare like vision, hearing, dental, and fitness.
