2021 Medi-Cal Time and Distance Standards: Sacramento Area

2021 Medi-Cal Time and Distance Standards

This file provides a list of Kaiser Permanente's 2021 Medi-Cal time and distance standards (also known as geographic access standards) for all zip codes in Kaiser Permanente's Sacramento service area. The Sacramento Area includes Sacramento County and certain zip codes in Amador, El Dorado, and Placer counties.

This list of Medi-Cal Time and Distance Standard is provided in accordance with California Welfare and Institutions Code (WIC) § 14197.04(c) and includes Alternative Access Standards approved by the California Department of Health Care Services (DHCS) in accordance with WIC § 14197(e)(1)(B).

Time and distance mean the number of minutes and miles from a member's residence to the provider type. For example, a primary care provider must generally be within 10 miles from a member's residence and within a 30-minute drive from the member's residence in order to meet the primary care provider standards. Standards for specialty and outpatient mental health care vary by county, as established by DHCS.

DHCS may grant exceptions to the established time and distance standards in recognition of special situations. These are known as Alternative Access Standards (AAS). AAS may be granted in situations where DHCS "determines that the requesting Medi-Cal managed care plan has demonstrated that its delivery structure is capable of delivering the appropriate level of care and access" (see WIC § 14197(e)(1)(B)).

If your zip code and provider type are listed, Kaiser Permanente must help you find an appointment. You have a right to call Member Services to get help with finding an appointment to a closer specialist. You may call the Member Services Contact Center at **1-800-464-4000** (toll free), or **711** (TTY), 24 hours a day, 7 days per week (closed major holidays). If Kaiser Permanente cannot find you an appointment with a closer specialist (a specialist within the approved time and distance standards), Kaiser Permanente can arrange transportation to see the specialist.
