

KAISER PERMANENTE OF GEORGIA

2020 FIVE-TIER FORMULARY BENEFIT

This document includes Kaiser Permanente Georgia's 5 Tier Plan Benefit Formulary as of May 13, 2020. For an updated formulary, please visit our website at members.kp.org or call 1-888-865-5813, Monday through Friday 7:00 a.m. to 7:00 p.m. TTY/TDD users should call 1-800-255-0056.

What is the Kaiser Permanente Drug Formulary?

A formulary is a list of drugs determined to be safe and effective for our members by our Pharmacy and Therapeutics Committee. Use of formulary drugs enables Kaiser Permanente to provide optimal care to you and your family at reasonable costs. Kaiser Permanente continually updates the formulary throughout the year based on new medical evidence, considering the recommendations of appropriate physician experts.

Does the formulary ever change?

Yes, Kaiser Permanente continually updates the formulary based on new medical evidence, considering the recommendations of appropriate physician experts and notifies our doctors, pharmacists, and other clinicians about any changes. If a change in the formulary affects any of your prescriptions, your doctor or pharmacist will let you know.

The enclosed formulary is current as of **May 13, 2020**. To get updated information about the drugs covered by Kaiser Permanente, please visit our Web site at *members.kp.org* or call Member Services at 1-888-865-5813, Monday through Friday 7:00 a.m. to 7:00 p.m. TTY/TDD users should call 1-800-255-0056.

How do I use the Formulary?

Generic drugs are listed in lower-case italics (e.g., *amoxicillin*) within the formulary. Brand-name drugs are capitalized in the formulary (e.g., FLOVENT).

There are two easy ways to find your drug within the formulary:

Medical Condition

The drug list begins on page 4. The drugs on this formulary are grouped into categories depending on the type of medical condition that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, “Cardiovascular Drugs.” If you know what your drug is used for, simply look for the category name in the list that begins on page 4. Then look under the category name for your drug.

Alphabetical Index

If you are not sure what category to look under, you can look for the drug in the Index that begins on page 53. The Index provides an alphabetical list of all of the drugs included in this document. Both brand-name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to the drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and

Multiple tiers may be displayed for a medication where drug product strengths and different dosage forms may not be included on the same tier, check with your Kaiser Permanente pharmacist for clarification, if needed.

Tier 1=Preventative Generic, Tier 2=Preferred Generic, Tier 3=Preferred Brand, Tier 4=Non-preferred Drugs, Tier 5=Specialty

find the name of your drug on the list. You may also use the search function on your computer to search this document for the medication by name.

What are generic drugs?

Generic drugs are produced and sold under their chemical names after the patent of the Brand-name drug expires. Although the price is lower, the quality and effectiveness of generic drugs is the same as Brand-name drugs. The Food and Drug Administration (FDA) requires that generic drugs contain the same active ingredients in the same amount as the Brand-name drug. Kaiser Permanente pharmacies stock only generic drugs that have met the high standards of both the FDA and the experts in our quality assurance program.

Because all drug product strengths and package sizes of a drug may not be included on the formulary, check with your Kaiser Permanente pharmacist for clarification.

How much will I pay for Covered Drugs?

What you pay for covered drugs is determined by the outpatient prescription drug benefit outlined in your Evidence of Coverage. Open formulary benefits have a generic cost sharing requirement. This means that if you fill a brand name drug

when a generic is available, that in addition to your standard copayment or coinsurance, you will also pay the difference in cost between the brand name and generic drug.

Preventative generics are those covered at the lowest cost share amount defined as Tier 1. Preferred generics are those covered at the 2nd lowest cost share amount defined as Tier 2. Preferred Brands are those Brands which will be covered at your Preferred Brand cost share amount defined as Tier 3. Non-preferred drugs are those defined as Tier 4 and have a higher cost share. Specialty medications are covered at the specialty cost share defined as Tier 5. Affordable Care Act (ACA) mandated preventive medications are covered at a \$0 cost share and labeled as ACA. Medical service drugs that are covered under the medical benefit are label as Medical.

Coverage for prescription drugs is limited to drugs for which a prescription is required by law and those that are listed on the Kaiser Permanente drug formulary. Certain diabetic supplies do not require a prescription, but must still be listed in our formulary in order to be covered under the benefit.

Multiple tiers may be displayed for a medication where drug product strengths and different dosage forms may not be included on the same tier, check with your Kaiser Permanente pharmacist for clarification, if needed.

Tier 1=Preventative Generic, Tier 2=Preferred Generic, Tier 3=Preferred Brand, Tier 4=Non-preferred Drugs, Tier 5=Specialty

Each prescription refill is provided on the same basis as the original prescription. Copayments are applied on a per prescription basis, for up to the lesser of the dispensing amount listed in the “Schedule of Benefits” or the standard prescription amount, including maintenance drugs as determined by Health Plan.

The standard prescription amount for the following items is:

- Migraine medications — the smallest package size commercially available
- Ophthalmic and otic medications — the smallest package size commercially available
- Oral and nasal inhalers — the smallest standard package unit

Are there any other restrictions on coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Quantity Limits (QL):** For certain drugs, Kaiser Permanente limits the amount of the drug that will be covered.
- **Age Restriction (Age):** For certain drugs, Kaiser Permanente limits coverage based on a designated age.

- **Prior Authorization Medication (PA):** For certain drugs, Kaiser Permanente requires review and authorization prior to dispensing. Your Provider must obtain this review and authorization. The list of prescription drugs requiring review and authorization is subject to periodic review and modification by our Pharmacy and Therapeutics Committee.

- **Step Therapy (ST)*:** For certain drugs, Kaiser Permanente requires the use of similar, alternative medications prior to coverage.
* Only certain plans require step therapy restriction

You can find out if the drug has any additional requirements or limits by looking in the restriction's column.

What if my drug is not on the Formulary?

You can contact Member Services at 1-888-865-5813, Monday through Friday 7:00 a.m. to 7:00 p.m. TTY/TDD users should call **1-800-255-0056** and ask Member Services for a list of similar drugs that are covered.
